w Trade Plan U.S. Dismays C Negotiators

By Clyde H. Farnsworth

S, Dec. 9 (NYT).—The possibility that protracted ions might delay a settlement of the world monetary today as Common Market sources reacted with dis- of demands made by the United States.

m Eberle, chief trade negotiator for the United States, ted that *sufficient* progress would be made to get a a monetary meeting in Washington Dec. 17-18. Mr. nd come here expecting to spend this week negotiating, returned to Washington this afternoon after five hours of conversations with the Common Market administrators.

UPI

J. Bunche

The United States is putting enormous pressure on the European Economic Community to get rid of some of its restrictive trade practices that check U.S. exports, particularly in the farm sector. Washington is apparently unwilling to offer concessions in return.

Community sources characterized the demands as "overwhelming." Ralf Dahrendorf, the chief trade official in the Brussels executive authority, said, "If this is the last word, then a realignment of currencies isn't possible."

U.S. sources declined to say that the list was the last word. The monetary and trade talks have been likened to an international poker game for exceedingly high stakes.

Secretary of State William P. Rogers, who is here for a meeting of the North Atlantic Treaty Organization, sought to explain to the Europeans today the reasons behind the U.S. economic offensive. He did this at a lunch given for him by Franco Maria Malfatti, president of the Brussels commission.

When the Nixon administration came to office in 1969, Mr. Rogers said, it found the United States overcommitted and under-appreciated.

It was running international payments deficits partly because it was trying to do too much in the world and partly because of trade inequities that resulted from U.S. efforts to get Europe and Japan back on their feet after World War II.

Sources close to Mr. Rogers said that the decision of 10 European countries yesterday to add $1 billion to their defense budgets satisfied U.S. demands. The thorny trade and realignment issues remain and the United States will dismantle the surcharge when it feels it has gotten a reasonable adjustment.

U.S. sources said that Mr. Eberle had put before the Europeans demands to quickly eliminate restrictive trade practices as a condition for removing the surcharge, and had outlined some of the other problems the United States wants to take up in longer-range trade negotiations with the Common Market.

Presumably, all the old grievances, over which the United States and the EEC have bickered for years, as well as some new ones were on the list, which was not made public.

The Common Market's ire was stirred by the dimensions of the demands. Mr. Dahrendorf said the United States seemed to be *demanding* "fundamental changes in all policies as a condition for realignment."

High EEC sources reported that the United States had demanded a basic change in the market's farm policy, which would be bitterly fought—especially by France, the major farm supplier in the community.

According to these sources, Washington wants community farm prices to be at world-market levels instead of at the artificially high levels that now prevail.

nember assembly re- Middle East debate, interrupted Tuesday on devoted to the In- ani war. Extra meet- cheduled on the Mid- ecause at least 50 dele- heduled to speak. The djourned at 8 p.m. ng 12 speakers and ly to Israel.

Replying to Israeli Foreign Minister Abba Eban's speech of last Friday, Egyptian Ambassador Mohammed el-Zayyat said that Cairo was ready for a "peaceful solution" to the Arab-Israeli conflict.

With reference to the Nov. 22, 1967, Security Council resolution calling on Israel to withdraw from occupied Arab territory, Mr. Zayyat said, "By blocking every way to peace, it is Israel who is making the decision for war, not Egypt."

● Cairo treason trial hands down sentences. Page 5.

Egyptian President Anwar Sadat has warned that Egypt will go to war if necessary to regain its territories—the Sinai Peninsula and the Gaza Strip—if the conflict is not resolved peacefully by the end of 1971.

Mr. Chiao accused Washington and Moscow of "singing in duet" to prevent the Arabs "from waging just struggles" against Israel. Peking has made it clear that it will not participate in U.S.-Soviet attempts to mediate a Middle East peace.

Mr. Chiao charged that the Middle East crisis has gone unresolved for more than two decades because "the two superpowers"—the United States and the Soviet Union—"are contending and colluding with each other there."

'Dirty Political Deals'

He said that Washington and Moscow were making "dirty political deals in their contention for important strategic points and oil resources and the division of spheres of influence in the Middle East."

Mr. Chiao urged all governments and peoples "to strongly condemn the aggression by the Israeli Zionists, strongly condemn U.S. imperialism, which supports their aggression, and strongly condemn the reactionary forces in Jordan for their sanguinary repression of the Palestinian people."

Uncertainty on Security Conference

Soviet Berlin Tactics Divide NATO

By James Goldsborough

BRUSSELS, Dec. 9 (IHT).—The Soviet Union's confusing stop-and-go tactics in the Berlin negotiations have opened a division among the NATO allies on how to proceed toward the European security conference that is to get under way next year.

This became apparent today as the foreign ministers of the United States, Britain, West Germany and France opened the semiannual NATO Council meeting today with statements on how to react to the latest tactics—or nontactics—the Communists have been using on Berlin.

The allies also showed that they were not in complete agreement on how to react to Moscow's rebuff of Manlio Brosio's planned mission to Moscow to explore the possibilities of talks on armed force reductions (MBFR).

Sir Alec Douglas-Home, the British foreign secretary, summed up one attitude by saying that the Russians did not seem at all as ready to "taste the wine" on both the security conference and MBFR as they had last spring.

● Bonn offers U.S. cash as part of offset pact. Page 2.

Sir Alec was using Soviet party leader Leonid I. Brezhnev's own phrase when the Russian challenged the West to "taste the wine" and begin serious talks with the Warsaw Pact countries.

The allies may be able to patch up some of their differences in time for tomorrow's communiqué. But this does not have the makings of the meeting it was designed to be. It was to have been the meeting that followed on the heels of an inter-German agreement on Berlin and Mr. Brosio's return from Moscow following his force reduction talks.

Two weeks ago many Western officials were betting that this was the meeting at which the go-ahead would be given on preparations for the security conference. As it is, however, this meeting is dominated by suspicion of Soviet intentions.

Postponement Urged

American, West German and British foreign ministers argued today that the preliminary talks on the security conference, which were to begin as soon as the Berlin agreement was reached, must be postponed.

French Foreign Minister Maurice Schumann disagreed. Mr. Schumann contended that it was time for the West to seize the initiative for the security conference. To hesitate now because of Berlin would be to back into the conference or "dragging our feet," as he put it.

At stake here, quite simply, is

(Continued on Page 2, Col. 1)

Stoph Offers to Meet Today

Berlin Mayor Makes Appeal For Wall Passes at Christmas

BERLIN, Dec. 9 (AP).—West Berlin Mayor Klaus Schuetz appealed today for East Germany to carry out its promise of Christmas wall passes since his side was ready to initial a long-term wall pass agreement.

He said his city government was ready to initial the agreement worked out in the Dec. 7-8 session in East Berlin despite "many reservations and although many of our wishes were not fulfilled."

Mr. Schuetz made the conciliatory appeals in a letter to East German Premier Willi Stoph as the initialing of both the intercity accord and one between East and West Germany were stalled.

Last weekend, the East Germans said they would put into effect a special Dec 20-Jan. 20 Christmas pass period for West Berliners, if both German pacts had been initialed.

Late tonight, Mr. Stoph replied to Mr. Schuetz suggesting that East German and West Berlin negotiators confer at 11 a.m. tomorrow in East Berlin.

There was no immediate Western reply to Mr. Stoph's letter, but it was assumed that West Berlin authorities would readily accept.

In his letter, reported by the East German news agency ADN, Mr. Stoph said tomorrow's meeting should be only for preparations of initialling. He made it clear that East Germany considered the text of the agreement as final and that West Berlin would get no more concessions.

In his letter, Mr. Schuetz said West Berlin would accept only two wall pass application offices being opened on weekends as the East Germans want. Weekdays, there would be five. He said his side had talked about clarification of two other points which, he emphasized, were in accordance with the negotiated result.

"Our negotiator," Mr. Schuetz wrote Mr. Stoph, "is ready today to initial the agreement... Your government has declared that a Christmas accord was dependent on initialing of the agreement between the West Berlin Senate and the government of the German Democratic Republic. Since we are ready to initial, may I point out to you that your initiative to allow the West Berliners to visit their relatives and friends at Chirstmas still may be carried through."

Brandt Arrives in Oslo

OSLO, Dec. 9 (Reuters).—West German Chancellor Willy Brandt arrived in Oslo today to receive the 1971 Nobel Peace Prize he was awarded for his policy of improved relations with Eastern Europe. The prize-giving ceremony takes place tomorrow at Oslo University.

Asserts Dacca Is Surrounded

India Says It Prepares Crushing Blow in East

From Wire Dispatches

NEW DELHI, Dec. 9.—India claimed to have made advances or held the line all along its western fronts today and to be readying a crushing blow on its enemy in the east, where it said Indian troops have ringed Dacca, the capital of East Pakistan or, as India calls it, the capital of the independent Bangla Desh.

But there were conflicting reports about the probability of a decisive battle at Dacca, a city of 575,000 in the center of East Pakistan. One report circulated that 37,000 Pakistani soldiers were digging in there, for a last-ditch defensive action.

Another report, by an official spokesman for India, said Dacca's Pakistani garrison had broken up in disarray and its members were fleeing south "in utter confusion." Another official report, however, said that other Pakistani soldiers, retreating before Indian columns advancing from all sides, were converging on Dacca.

The official who claimed Dacca's original garrison had dissolved said that its members did not constitute a fighting force any more. An additional report, from intelligence authorities, said that Pakistan's military commander in the east, Lt. Gen. A. K. M. Niyazi, had himself fled, with his staff and household belongings, last Friday, in three planes that took him to West Pakistan, 1,000 miles away. This report was denied today by Pakistan.

Appeals for Surrender

India was broadcasting hourly surrender appeals to enemy forces in the east, still estimated to number near their original size, put at 70,000 to 80,000 troops.

Pakistan's forces in the east were thought to be near their original strength because India said today that enemy casualties there, up to this seventh day of the third Indian-Pakistani war since independence in 1947, totaled 353 dead, 295 captured and 181 wounded. Locally recruited home guards had lost 41 dead, 1,538 captured and 45 wounded, India said. These figures did not make sense, however, since India had claimed a higher manpower toll as of Tuesday. The official spokesman today promised to recheck the situation.

Defense Minister Jagjivan Ram told Parliament today that so far the enemy had lost 73 planes to India's 31, and 109 tanks to India's 49. The Pakistani Navy has lost three warships, nine gunboats and two submarines while no Indian vessels have been sunk, Mr. Ram told cheering members of the lower house. In addition, India said today that two Pakistani ammunition trains have been blown up in West Pakistan.

Control of Sky

The Indian Air Force, claiming that Pakistan has no warplanes left in the east, said it was using its complete mastery of the East Pakistan skies to hamper the retreat of Pakistani soldiers from Dacca. It said it had flown 220 strikes in the last 24 hours, and half were against sampans, barges and steamboats that the fleeing Pakistanis were using to escape to the south. About 100 of the vessels, including some gunboats, had been sunk, the spokesman asserted.

As the surrender-appeal broadcasts warned the enemy that they faced "certain death" unless they laid down their arms, the defense minister told Parliament that the Indian Navy completely controlled the Bay of Bengal, along the coast of East Pakistan.

India said its ships had sunk four Pakistani gunboats in the bay, near East Pakistan's major port, Chittagong, and claimed that the Indian Navy had seized two Pakistani merchant ships in those waters. Several foreign ships, including an American vessel, have been hit by Indian

(Continued on Page 2, Col. 5)

Pakistan Accepts Cease-Fire Plea Made by UN; No Reply From India

UNITED NATIONS, N.Y., Dec. 9 (Reuters).—Pakistan today accepted the General Assembly's appeal for a cease-fire and withdrawal of troops.

In a note to Secretary-General U Thant, Pakistani Ambassador Agha Shahi said his government was "willing to overlook" the inadequacies of the Assembly resolution, adopted on Tuesday evening.

The note said, "It is the hope of the government of Pakistan that . . . the United Nations will now decide upon agreed and binding measures to secure and maintain the cessation of hostilities with immediate effect ,the withdrawal of all armed personnel, and the stationing of UN observers on both sides of the border to supervise and to oversee the withdrawal of forces."

Diplomatic sources said there was still no Indian response to the cease-fire call. Indian Ambassador Samar Sen saw Mr. Thant yesterday, at the secretary-general's request, but no appointment was made for today.

150 Perish in Orphanage

Pakistan Denies Loss Of Big Towns in East

From Wire Dispatches

RAWALPINDI, Dec. 9—Pakistan tonight insisted that its troops were holding fast in the country's eastern province, where an air raid by Indian planes last night created the worst tragedy of this first week of war—the death of about 150 boys in a Moslem orphanage.

Other high tolls of civilian life in Pakistan overnight included more than 60 deaths from air strikes on Karachi and 45 deaths from the bombing of West Pakistan provincial towns.

The Pakistani government today sent a message to the president of the International Red Cross in which it accused India of causing heavy loss of civilian life and of attacking hospitals and merchant ships carrying food for relief.

In New Delhi, an Indian spokesman tonight vehemently denied that Indian planes had bombed the orphanage at Dacca. He insisted that India's air force has not attacked any civilian targets.

The orphanage at Dacca was said to have housed 400 youngsters—100 girls and 300 boys. It was feared the death toll might be more than the 150 figure given out as an estimate by authorities. The 100 girls are all safe.

An army spokesman at a press conference tonight, commenting on India's claims to have taken the most important towns in the east, except the capital of Dacca, said, "With all the force at my command, I entirely deny this claim." He insisted that Jessore,

For President of Italy

De Martino Leading Fanfani In Initial Balloting in Rome

By Paul Hofmann

ROME, Dec. 9 (NYT).—Vice-Premier Francesco de Martino, chairman of the Socialist party, led in two inconclusive votes when the laborious search for a new president of Italy started today.

Runner-up was former Premier Amintore Fanfani, who fell behind on the second ballot amid indications that some disgruntled members of his own Christian Democratic party had withdrawn their support in secret polling.

A third ballot is scheduled for tomorrow morning. The forecasts tonight were that it, too, would be futile.

The electing of Italy's sixth head of state since the fall of the monarchy is expected to enter a decisive stage Saturday when the 1,008-member electoral college convenes for a fourth ballot.

Today's returns showed 397 votes for Mr. de Martino to 384 for Mr. Fanfani on the first ballot and 398 to 368 on the second.

Giovanni Malagodi, leader of the Liberal party, which is right of center, received 49 votes on the first ballot and 50 on the second.

President Giuseppe Saragat, the outgoing head of state, whose seven-year terms runs out on Dec. 28, was given 45 votes on the first ballot and 46 on the second. None of his four predecessors won re-election, although the constitution permits it.

Forty-two votes went to Augusto de Marsanich, chairman of the neo-Fascist Italian Social Movement, on the first ballot and 39 on the second.

The voting took place in the Chamber of Deputies at Montecitorio Palace in Rome's center.

Television allowed Italians to watch the members of the Chamber and Senate and 58 delegates from Italy's 20 regions place their ballots in a brass container. Sandro Pertini, president of the Chamber, afterward read out aloud the names on each ballot. Mr. Fanfani, who is Senate president, was seated at his right.

Strong police forces guarded all approaches to the palace and thousands of policemen were in readiness. No incidents occurred.

The constitution prescribes a two thirds majority for the president to be elected on the first three ballots, and a simple majority—505 votes in the present assembly—on each following ballot.

Uncertainty on Security Conference

Soviet Berlin Tactics Divide NATO

(Continued from Page 1)

the Russians' good faith. The French, supported by the Scandinavians and Belgians to a lesser degree, believe that the two Germanys will quickly wrap up their agreement and that it will be acceptable to the Big Four. Washington, Bonn and London argue that Moscow might refuse to ratify the inter-German accords, further delaying a final Berlin agreement, which has been a precondition for the security conference.

The result is going to be that the delay in Berlin will cost the Russians a few months' delay in beginning preparations for the security conference.

In a long statement this morning, Secretary of State William P. Rogers told the allies that President Nixon's coming trips to Peking and Moscow would not be used to discuss third country problems. He told the meeting that the United States would not be dealing over the heads of its allies.

"We will do nothing in these meetings," he said today, "that is at the expense of any other nation."

On the security conference, Mr. Rogers proposed that the NATO deputy foreign ministers meet as soon as the final Berlin accord is signed to begin preparation on the *procedural and substantive issues* that will be included on the conference agenda. The United States, never enthusiastic about the security conference, now at least has dropped any open opposition to it, most likely on the grounds that when Berlin is out of the way, the conference will be inevitable.

Last night, the foreign ministers of France, Britain and the United States agreed that the final Big-Four Berlin accord could be signed simultaneously with the West German Bundestag's ratification of the Bonn-Moscow and Bonn-Warsaw nonaggression pacts; thus ending the argument over which comes first.

The subject of mutual and balanced force reductions was brought up by most of the foreign ministers today, with all but the French regretting that the Russians had not received Mr. Brosio.

These same foreign ministers repeated that they still hoped that Mr. Brosio would be received in Moscow, and it is likely that there will be another reference to the Brosio mission in tomorrow's communiqué.

Deep Divisions Seen

There can be little doubt after this meeting that the NATO countries are deeply divided over both the security conference and and MBFR talks. Washington and London are clearly unenthusiastic about the security conference, with Bonn only lukewarm, Italy unsure and Portugal, Greece and Turkey indifferent. The real enthusiasm comes from the French, who have taken the lead because of what they hold to be their "special relations" with Moscow, and the smaller countries, like the Scandinavians and Belgians.

It appears to be this lack of enthusiasm among many of the allies that has slowed down the Soviet Union in the march toward a quick Berlin settlement.

On MBFR, it can be safely said that only the Americans want it, but the others—except the French—will go along for fear of unilateral U.S. force reductions.

Mr. Rogers, as well as some of the other foreign ministers, mentioned the Indo-Pakistan conflict today, repeating the positions that their countries have taken at the United Nations.

On the Middle East, Mr. Rogers told the allies that some negotiating process must continue between the parties. On Vietnam, he said that he was pleased that this year Vietnam was not high on the list of the world's trouble spots.

Bonn Offers U.S. Cash Payment As Part of an Offset Agreement

BRUSSELS. Dec. 9 (IHT).—U.S. and West German representatives today discussed a 3.8 billion mark offset payments package that for the first time would include a lump-sum payment by Bonn for the upkeep of some of the 180,000 U.S. troops stationed in West Germany.

Helmut Schmidt, the West German defense minister, offered the straight 600-million-mark payment as part of a two-year agreement.

Mr. Schmidt first revealed that Bonn would offer a direct payment Oct. 27, but at that time he talked only of several hundred million marks a year without giving a hard figure.

The two sides are negotiating to replace the old offset agreement that expired June 30. In the past, the West Germans have undertaken to reduce some of the U.S. balance-of-payments deficit through commitments to buy U.S. products or by investing in the United States. But they have refrained from direct payments.

The 600-million-mark figure, which is thought to be close to the amount acceptable to Washington, would be used for upkeep of the facilities used by U.S. troops in West Germany and payment to the German workers employed on U.S. bases.

Defense Secretary Melvin R. Laird, who had breakfast with Mr. Schmidt today, was reportedly pleased when the offer was first mentioned.

Troops Find Big Arms Cache In Search of Homes in Belfast

BELFAST Dec. 9 (UPI).—British troops battled gunmen today in Roman Catholic areas of Belfast and Londonderry during sweeps for arms caches and suspected members of the outlawed Irish Republican Army.

In Belfast, soldiers seized what an army spokesman called "our biggest arms find in weeks" in a house across the street from a security force headquarters.

The troops found 50 pounds of gelignite explosive material, two submachine guns, two rifles, three shotguns, eight pistols, 3,000 rounds of ammunition, radio equipment and a pair of blood-stained trousers, the spokesman said.

More explosions rocked Belfast today when bombers struck at a men's clothing store and the Great Victoria Street bus station ticket office. The blasts heavily damaged the ticket office and started a fire that burned out the clothing store building.

Some 400 soldiers came under fire six times in a sweep of Londonderry's Bogside district. They dueled with the gunmen twice and fired rubber bullets to break up youth gangs hurling nail bombs, an army spokesman said. The searchers arrested two IRA suspects, he added.

A 16-year-old, Sarah Jarvis, was seriously wounded in Londonderry early today, but no British troops were shooting in the area, the spokesman said.

In Belfast, soldiers discovered a cache of gelignite in the Catholic area of Ballymacarett and arrested two IRA suspects.

Progress Seen In Germany's Metal Strike

Negotiation Smoother, Both Sides Report

STUTTGART, Dec. 9 (AP).—West German metal industry employers and unions reported today that progress has been made in a new round of negotiations to resolve a wage strike that has crippled the nation's auto production.

Hans Martin Schleyer, of the North Baden-Wuerttemberg metal employers association, and Willi Bleicher, head of the district's metal unions, said the sides were *in the process of coming* closer and the talks were taking place in a relaxed atmosphere.

[A union spokesman declared late tonight that both sides had agreed on a pay increase, Reuters reported.

[He declined to disclose details of the settlement and added that the duration of the contract was still being negotiated.]

Also expressing optimism was Viktor Frankenberger, chairman of the district metal employers association.

At the same time, Eugen Loderer, second chairman of the metal union national organization, said there would be no strike vote in the remaining 18 metal industry districts until the conflict is resolved in North Baden-Wuerttemberg.

Directly affected by the two-week-old strike-lockout are 360,000 workers, many of whom man auto assembly lines.

Auto production has been completely idled at Daimler-Benz, Volkswagen, its Audi NSU subsidiary and the Bayrische Motoren Werk (BMW).

Production cutbacks are underway at General Motors plants in West Germany and Belgium, and Ford's German subsidiary says it will begin laying off workers next Monday if the dispute is not settled.

Britain Supplies 800 Tanks to Iran

LONDON, Dec. 9 (AP).—Britain is supplying Iran with 800 Chieftain tanks in a military equipment deal worth more than £200 million, the Daily Telegraph reported today.

A low level air defense missile system is included in the arms package, the newspaper said.

The Chieftain, with a 120-mm gyroscopically-mounted gun, is believed to be one of the world's most powerful battle tanks.

Britain has refused to sell it to Israel on grounds that the sale could interfere with the Middle East arms balance.

WAR BRIDGE—Indian Army trucks cross river on pontoon bridge in East Pakistan.

India Says It Plans Crushing Blow

(Continued from Page 1)

attacks near Chittagong. The captain of a Panamanian freighter hit near Chittagong said in Rangoon, Burma, today that one of his crewmen was killed and two were wounded. He said a Danish ship near him last Saturday had also been attacked.

Indian warships and planes were also active off Karachi, West Pakistan's major port, bombarding targets on land and allegedly killing seven British seamen on the British freighter Harmattan in an attack last night. Six seamen were wounded when the vessel, owned by the Gowland Steamship Co., was hit while riding at anchor.

The British government today handed the Indian high commissioner in London a stiff protest, charging India had made an indiscriminate onslaught. The British spokesman also deplored reports that India was bombing civilian targets in Karachi, in areas were British subjects are known to live. Britain asked India to cooperate in evacuating Britons from West Pakistan and to guarantee British lives and property in Dacca.

India said that its key success in the east today was the capture of Chandpur, on the Meghna River, about 40 miles south of Dacca. It also claimed the capture of Narayanganj, nine miles south of the capital, and of Ashurganj. With those towns and with Daudkandi, the ring of Indian troops around Dacca was virtually complete, India said.

Mr. Ram told Parliament that the *Mukti Bahini*—East Pakistani guerrillas, said to have numbered 50,000 when the province's rebellion began last spring, and now reported to total 150,000—are operating with the Indian Army under a unified command in the east. A Bangla Desh rebel spokesman said the Mukti Bahini are ready to fight in the west, too.

Counterattack in West

In the west, Indian troops were reported by All-India Radio today to have regained the Tawi River's west bank, which they had left earlier in the week in retreating before the war's strongest attack by the Pakistanis, a drive by an estimated two infantry divisions with three armored brigades.

The radio did not claim, however, that the Indians had retaken the nearby town of Chamb. The area contains the only road linking India's capital, New Delhi, with Srinagar, provincial capital of Kashmir, the disputed territory that provoked earlier, indecisive wars, in 1948 and 1965.

In addition to recognizing East Pakistan as the independent nation of Bangla Desh in this war, India has said that it will no longer honor the United Nations cease-fire line in Kashmir and will keep all Kashmiri territory it can wrest from West Pakistan. India has held about three-fifths of Kashmir and has rejected UN demands for a plebiscite for self-determination of the entire territory's allegiance, to Pakistan or India.

In the Jammu area, India said today that its troops had mede a thrust south of Pakistani forces attacking in southern Kashmir. "The Akhnur salient has been cut off from its bases in Pakistan," the spokesman reported.

Also in the west, India claimed today that its troops had captured Nagarparkar, in the far south, giving its forces power to wipe out Pakistan's hold on 150 square miles of the Rann of Kutch.

Defense Minister Ram denied today that Indian planes were bombing civilian targets but said that Pakistani aircraft were. He told Parliament: "Our defense forces have strict instructions to confine their attention to military targets and to avoid the civilian population.

In Alamgir, India, at least 20 civilians were killed and 25 wounded early today when two B-57 Canberra bombers of the Pakistani Air Force bombed the village, India said. The village is just off Indian National Highway 1, about 40 miles north of Jullundur and 20 miles east of the Pakistani border. At least 50 one-room mud homes were destroyed, said a Western correspondent visiting the village.

Evacuation Cease-Fire

NEW DELHI, Dec. 9 (Reuters).—India has assured other nations that its planes will not attack Karachi or Dacca airports during certain hours in the next two days to allow foreign nationals to be evacuated.

An official said today that the Pakistanis would be allowed to repair the Dacca airfield between 6 p.m. tomorrow and 8 a.m. Saturday, and bombing would not occur there before 6 p.m. Saturday, to permit foreign evacuation aircraft to land and take off. The planes, however, must stop in Calcutta before and after visiting Dacca, he said.

He said that Karachi's civil airport would be free from strikes from 8 a.m. to noon, both tomorrow and Saturday, for similar civilian evacuation.

Pakistan Denies It Has Lost Jessore, Other Cities in East

(Continued from Page 1)

Sylhet and Comilla were still in Pakistani hands.

Told that a Western newsman had accompanied Indian forces into Jessore, which has been the Pakistani Army's main garrison town in western East Pakistan, the military spokesman said tonight, "He could not have done so."

Earlier, another military spokesman had spoken of "the deter*mined resistance of Pakistani* troops all over East Pakistan" but had admitted that the situation around Jessore was "fluid."

The status of fighting at Jessore was called "confusing," but the spokesman said Pakistani troops there—previously estimated at 5,000 men—"were giving the enemy a good hammering."

India's claim to have captured Sylhet, in the northeast sector of the province, was a "fantastic and bloody lie not even worth a denial," he said, and he declared that Comilla, in the southeast, was "fully under the control of the Pakistani Army."

Pakistan claimed, in fact, to have inflicted four defeats on the Indians in East Pakistan today. It said that a counterattack by Pakistanis in the Kushtia area, north of Jessore, had wiped out an enemy battalion. Pakistanis destroyed six Soviet-built tanks there and captured three, a spokesman said.

In the Brahmanbaria area, east of Dacca, an Indian battalion was mauled and another badly crippled, Pakistan claimed. It said its troops there captured seven Soviet-made tanks and were now using them.

It said a commando of Indian troops flown by helicopter to the Sylhet sector was wiped out. The size of the enemy detachment was not specified.

Pakistan said two companies of Indians landed by helicopter in *the Hili area, in the northwest,* and were destroyed.

Pakistani authorities today circulated a story about the heroism of their forces in the east, where they are outnumbered perhaps four to one by the combined Indian and Mukti Bahini guerrilla enemy. A communiqué said 42 Pakistani soldiers killed 540 enemy troops in resisting an assault on the border post of Kamalpur. Battalions and brigades of the foe attacked in wave after wave, the communiqué said.

Pakistan has said that its troops in the east are fighting a holding action and will surrender territory while wearing down the Indian forces. The Indians, on the other hand, are attempting to secure the key towns en route to a possible final "liberating" attack on Dacca.

In the west, Pakistan claimed that its forces crossed the Tawi River, east of the town of Chamb seized from the Indians earlier in the week.

Pakistan said that its troops captured 102 Indian soldiers and 11 tanks near the Tawi.

It said that elsewhere in the west there was heavy fighting in the Lahore and Sialkot areas.

The high death toll of boys in Dacca was inflicted when high-flying Indian bombers dropped explosives on the Islam Mission Orphanage four times, blasting great gaps in dormitories and the main school building.

Seventy bodies, all of boys, were dug out of the rubble in the first search and police estimated the total death toll among the orphans at 150. The orphanage is a mile from Dacca airport. Senior Pakistan Army officers said this tragedy, coupled with the death of 275 civilians in a raid on Dacca Saturday night, might lead to Pakistani Air Force retaliation against civilian targets in India.

In the raid on Karachi that *killed at least 60 civilians,* four bombs were dropped on a settlement of mud and wattle huts a quarter-mile from the city center.

Indian Airliner, 31 Aboard, Crashes

NEW DELHI, Dec. 9 (AP).—An Indian Airlines plane with 27 passengers and four crew aboard crashed today on a flight from Trivandrum to Madras in southern India, the airline said.

There were no immediate reports on casualties.

The twin-engined Avro went down in a hilly region as it was approaching Madurai Airport, 275 miles southwest of Madras, the airline added.

A Correction

In reporting the sale of an 18th-century painting by Jean-Honoré Fragonard at Sotheby's Wednesday (IHT, Dec. 9), the International Herald Tribune gave the price paid as £340,000, but incorrectly gave the dollar equivalent as $1.87 million. The approximate dollar equivalent paid by German Dealer Wolfgang Eisenbeiss is $850,000.

World A-Agency Expels Taiwan, Invites Peking

VIENNA, Dec. 9 (UPI).—The board of governors of the International Atomic Energy Agency voted to expel Nationalist China from the IAEA and invite mainland China to join.

Nationalist China called the vote "entirely illegal" and said it may appeal to the IAEA general conference, which meets in Mexico City next September.

The board voted, 13 to 6, with five abstentions, for a Romanian resolution, with the United States fighting Taiwan's expulsion but with Britain and France joining the Soviet Union in favor of Peking.

Nationalist China was one of IAEA's founder members in 1957. Peking was the only nuclear power not belonging to the organization.

Taiwan Ambassador Liu Tsing-chang walked out of the board meeting at IAEA's headquarters here after protesting the vote. "I refuse to play a role in this mad state of affairs," he said later.

Russia Says China Pushe War in Asia

Avers Peking Forms Joint Front With U.

By Hedrick Smith

MOSCOW, Dec. 9 (NYT).— Soviet Union, reacting sharply Communist Chinese criticism the Soviet position on the In Pakistani war, accused Peking day of "setting Asians aga Asians," a policy that Mos described as originating President Nixon.

A major commentary in Pra the Communist party newspa charged the Chinese with plying arms to Pakistan, invi top Pakistani military leade Peking shortly before ser fighting broke out and with ing to "fan the Indian-Pakis conflict" as well as sow dis between the Soviet Union Pakistan.

"The Maoists are actually ing to conduct the policy setting Asians against Asian policy that is very similar to 'Guam doctrine' of the Un States," the authoritative ar *declared.*

The allusion to Presid Nixon's doctrine, formulated Guam in 1969 and asserting Asians should take primary sponsibility for defending th selves, expanded upon ea Soviet charges of Chinese-Am ican collusion in the Indo-P istani conflict.

Collusion Suspected

Some well-placed Russians reported today to have indic privately to friendly diplo and journalists that they sus that Washington and Pe coordinated their policies tow Pakistan during the first last June to Communist Ch of Henry A. Kissinger, Presi Nixon's adviser for nati security affairs.

According to neutral in mants, Russia reportedly some hopes for improvem relations with Peking after behind-the-scenes power str in Communist China that en ed in mid-September with cancellation of China's tradit Oct. 1 National Day parade.

The current sharpness of Sino-Soviet dispute is interpr by some foreign diplomats a sign of Moscow's disappoint with the hostility toward Mos shown by Peking's representat at the United Nations.

Propaganda Pace Up

After a [illegible] earlier fall during the uncertainty ab political maneuvering in Pek Soviet propaganda against Co munist China has now retur to the volume and vehemence late summer after Presid Nixon's forthcoming visit Peking was announced.

The forceful and almost d Soviet condemnation of Chin American cooperation and par policies, first toward the So proposal for a world disarman conference and now on the In Pakistani conflict, is seen some foreign diplomats evidence of Moscow's deep prehension about Mr. Nixon's proach to China.

China Condemns Russia

TOKYO, Dec. 9 (AP).—Chi Acting Foreign Minister Peng-fei "sternly condemned" Soviet Union today for what said was Moscow's acting i truculent manner and practi power politics in the UN."

Mr. Chi said that "so imperialism has undisguis assumed the role of the prote of the Indian expansionists acting in a truculent irascible manner, it has put a varied, shameless show in UN."

100-Car Crash in Italy

BERGAMO, Italy, Dec. 9 (— Nearly 100 cars were invo in a chain collision caused thick fog on the Milan-Bre highway near this north Ita town last night. Several dri were injured, police reported.

ress Votes Tax Cut-- 6 Billion Compromise

By Fred Farris

TON, Dec. 9 (IHT). oday passed and sent Nixon a compromise tax-cut bill aimed at S. business efficiency or buying power. lex measure, which a controversial tax finance presidential n 1976, is expected to to law by President te his displeasure at ons.

e first approved the e compromise legisla- and the Senate fol- 1-6, three hours later. e originally had writ- e three-year tax-cut provision earmarking h taxpayer's payment led into a fund avail- a major parties for campaigns starting

hite House threat to in order to kill that sired by the Demo- ed in House-Senate action diluting the und provision and de- fectiveness until 1976, ent Nixon will not be for re-election. ent of the campaign til 1973 insured that ts could not use it to pty coffers for next against President Nixon, removing what some considered the "partisan" character of the plan.

White House Press Secretary Ron Ziegler said last week, when the campaign-fund compromise was struck, that Mr. Nixon opposes the checkoff provision in principle. However, he outlined an alternative to the veto which the President might adopt: Mr. Nixon could ask Congress next year to repeal the provision.

The implication appeared to be that the President, in order to gain the tax cuts he considers necessary to boost the economy, would sign the compromise bill.

The final bill approved by the House today cuts taxes by about $25.9 billion over the 1971-73 period, of which about $11 billion is for individuals and $15 billion for business.

The final bill:

- Permits taxpayers, for the first time, to deduct contributions to local, state and federal candidates. The maximum deduction is $100 for a couple filing jointly or $50 for an individual. Or instead of a deduction, the taxpayer may elect to take a tax credit of $1 for each $2 contributed, up to credits of $25 for a couple or $12.50 for an individual. The benefits apply to contributions made after Dec. 31, 1971.

(A tax deduction is subtracted from taxable income, while a tax credit is subtracted from otherwise final taxes.)

- Authorizes a 7 percent tax credit on business investments.
- Endorses, with changes which narrow its effect, the President's new 20 percent accelerated-depreciation system for investments in new machinery and equipment.
- Repeals the 7 percent auto excise tax and the 10 percent light-truck tax. Buyers will save about $200 a car.
- Raises the $650 personal exemption to $675 for 1971 and $750 for 1972.
- Raises the minimum standard deduction, for low-income persons who do not itemize, from $1,050 at present to $1,300 in 1972.
- Raises the percentage deduction, for somewhat higher-income people who don't itemize, from the present 13 percent (with a $1,500 ceiling) to 15 percent (with a $2,000 ceiling) in 1972.
- Authorizes a working couple or a working individual who is without a spouse, to deduct up to $4,800 a year for the cost of hiring household help to care for a child, dependent or a disabled spouse in the home.
- Authorizes establishment of new domestic international sales corporations engaging in export business, which can exempt payment of taxes on half their profits so long as they reinvest them in the business.

In other congressional developments:

- The House today approved a 25 percent boost in price-support loans to grain farmers designed to raise their income by $2 billion a year. It rejected a proposed overall benefit limit of $20,000 per farm.

The benefit package, which now goes to the Senate, also calls for creation of a new "strategic" reserve supply of grains both in the interest of national security and to protect farmers from loss.

The estimated cost of initial purchases of wheat, corn and feed grains for this bank was put at $1.45 billion, with storage cost put at $215 million a year.

Both features of the bill were opposed by the Nixon administration, and the House vote was generally split along party lines. On final passage the roll call was a close 182 to 170.

The proposed new support rates would apply to this and next year's crops of wheat, corn and feed grains.

- The House yesterday voted to bar all aid funds to Ecuador, evidently in retaliation for its seizure of U.S. fishing boats.

Ecuador would have received $14 million in Alliance for Progress funds.

Since January, the House was told, Ecuador has seized several U.S. fishing vessels, which were fined more than $2 million for operating within the 200 miles that Ecuador claims as its territorial limit. The United States recognizes only a 12-mile limit.

Now retired, he said, "I started playing with bugs when I was three and once you get started with the characters it's very hard to quit." His wife and the President's mother were sisters.

Natural Gas Deal Cited

Stans Says U.S.-Soviet Trade Could Soar in Next Few Years

WASHINGTON, Dec. 9 (AP).—Trade between Russia and America could rise to "billions of dollars" over the next several years, U.S. Commerce Secretary Maurice Stans predicted today.

Just back from an 11-day trip through the Soviet Union, Mr. Stans told a news conference that the Russians proposed to him vast American investment in the production of natural gas, which is in plentiful supply there.

He said that the Russians would like to see exports of $1 billion in natural gas to the United States in exchange for an American commitment to build a pipeline and liquefaction plants and to provide ships for transporting the gas.

"The potential for normalization of relationships is very great," Mr. Stans said. His trip included meetings with Soviet Premier Alexei N. Kosygin and numerous Soviet trade officials.

Mr. Stans said that, as a result of his trip, the Russians are sending a small group of trade officials to begin a new round of meetings at the Commerce Department on Jan. 6 to discuss what kinds of Russian products could be sold in the United States.

In addition, Mr. Stans said, he has invited the Soviet trade minister to visit him sometime next year.

Mr. Stans said that he doubted that there is a market for Soviet consumer items in the United States with the exception of traditional items like vodka and caviar.

But over the long run, Mr. Stans said, the United States would be interested in importing chrome, titanium, zinc, wood pulp, natural gas and oil.

One complication Mr. Stans suggested to the Russians is a lingering lend-lease debt from World War II. He said that the bill, of something less than $2 billion, would have to be resolved in some way before U.S.-Soviet trade was greatly expanded.

Scattered Protests

WASHINGTON, Dec. 9 (WP).—Only scattered protests about "trading with the enemy" were raised yesterday over the U.S. sale of feed grain to the Soviet Union, which a Nixon-administration official called a "history-making event."

If the hearing before two House of Representatives agriculture subcommittees accurately reflects the national mood for expanding East-West trade, even while the Indochina war continues, a considerable shift of U.S. attitude has occurred.

Nixon-administration officials, many of whom have reversed their own positions, are convinced there is such a national change of attitude. They believe these trade initiatives, now overshadowed by dramatic international news, can be a more important long-term development in East-West relations.

"To call this transaction history-making is putting it mildly," testified Assistant Secretary of Agriculture Clarence D. Palmby. "It is one of the most significant agricultural events in my public career."

An administration-negotiated deal with the U.S. maritime unions last month cleared the barrier to the sale of $135 million to $190 million worth of American corn, barley and oats to the Soviet Union.

The unions dropped their insistence on shipping half of American commercial grain exports to Communist nations on higher-cost U.S. shipping. All foreign shipping can now be used for this sale, with the unions counting on an assured share for American shipping out of future U.S.-Soviet trade deals and government subsidies.

Soviet Minister, In U.S., Sees More Grain Purchases

WASHINGTON, Dec. 9 (WP).—The Soviet Union is interested in purchasing American grain for years to come, Minister of Agriculture Vladimir V. Matskevich said today.

In an unusual press conference at the Soviet Embassy marking the start of an 11-day visit to the United States, Mr. Matskevich said he hopes to investigate prospects for importing U.S. farm machinery and for purchasing licenses for the production of combines and tractors in the Soviet Union.

The Soviet minister spoke of industrializing agriculture, improving livestock breeding and increasing the production of fruits and vegetables.

"We know that the United States has achieved some significant results in this sphere," he said. "So as not to invent this for a second time, we are ready to share our experiences and get something from the achievements of the United States.

"We hope this will be in our mutual interest."

Mr. Matskevich said, "The purchase of grain, especially corn, will continue for a long time." He later defined "a long time" as meaning "five to 10 years."

He conferred today with Secretary of Agriculture Earl Butz before leaving with a Soviet delegation on a tour of farm states.

Nixon Off Sunday To Azores Talks

WASHINGTON, Dec. 9 (AP).—President Nixon will leave at midday Sunday for the Azores, where he will hold three meetings with French President Georges Pompidou, the White House announced today.

The tentative schedule disclosed by Press Secretary Ron Ziegler also listed a meeting between Mr. Nixon and Portuguese Prime Minister Marcello Caetano late Sunday night. The President will return to Washington Tuesday afternoon.

Mr. Nixon's talks with Mr. Pompidou are part of a series of consultations with allied leaders. The President's forthcoming trips to China and Russia, the international monetary situation and a range of bilateral issues are scheduled for discussion.

Nixon, Brazil Leader End Three-Day Talks

WASHINGTON, Dec. 9 (Reuters).—President Nixon and Brazilian President Emilio Medici said today they had confirmed their close cooperation on world problems and bilateral relations in three days of talks here.

A joint statement said the talks were held in the spirit of the traditionally close and friendly ties between the two countries.

U.S. Tank Kills Boy, 8

FULDA, West Germany, Dec. 9 (UPI).—A U.S. Army tank failed to negotiate a bridge Tuesday and crushed to death an eight-year-old German boy and seriously injured his three-year-old companion, police said. They said that the tank apparently cut across a sharp curve leading to the bridge and crushed Mathias Colberg against steel bridge supports.

Davis Trial Shifted, But Is Protested

New Site, San Jose, Opposed by Defense

By Earl Caldwell

PALO ALTO, Calif., Dec. 9 (NYT).—The trial of Angela Davis, the black activist charged with murder, kidnapping and criminal conspiracy, was shifted yesterday to San Jose, a city of 450,000 near the southern end of San Francisco Bay.

After establishing the site, State Superior Court Judge Richard A. Arnason set what was described as a "firm" trial date of Jan. 31.

The selection of San Jose brought sharp criticism from Howard R. Moore jr., Miss Davis's chief counsel. He said that the defense would exhaust "every ounce of our energy" in an effort to have the trial moved.

Miss Davis, an avowed Communist and former philosophy instructor at the University of California at Los Angeles, is accused of complicity in the shootout at the Marin County courthouse in August, 1970, in which four persons, including a judge of the State Superior Court, were killed. She was arrested in October, 1970, in New York City.

Lawyers Wanted S.F.

In pretrial hearings her lawyers asked and were granted a change of venue. But they wanted San Francisco, not San Jose, which is the seat of predominantly white and middle class Santa Clara County.

Since last Thursday, Miss Davis, 27, has been jailed here in Palo Alto. She was transferred here from Marin County. But now, with the trial being shifted to San Jose, officials indicated that she would be moved again.

Judge John T. Racanelli, chief judge of the county Superior Court, said yesterday that a "consensus" of judges was that Miss Davis should be tried in San Jose rather than here in Palo Alto.

Albert R. Harris jr., the deputy state attorney general who is prosecuting the case, acknowledged that Santa Clara has a black population of only 1.5 percent, but said that he did not believe that this fact by itself would prevent Miss Davis from receiving a fair trial. He also said that he would oppose any effort to have the site of the trial shifted again.

As Japanese Send Foreign Aid

Seattle, With Jobless at 15%, Wins Suit for U.S. Food Aid

By Nick Kotz

WASHINGTON, Dec. 9 (WP).—Unemployed residents of Seattle began receiving foreign-aid donations from Japan this week as a federal judge said that the U.S. Agriculture Department had illegally withheld food aid from the city.

The foreign aid is coming from Seattle's "sister city" of Kobe, which sent 1,000 pounds of canned food and rice noodles after learning of the city's huge unemployment problem—the rate is 15 percent, the nation's highest, after layoffs at Boeing—and of the unwillingness of the U.S. government to distribute surplus food under the commodity distribution program.

The Japanese food is being distributed by Neighbors in Need, a church-sponsored, privately operated program.

On Tuesday, District Judge William Beeks of Seattle ruled that former Secretary of Agriculture Clifford Hardin had unlawfully denied the city a food commodity program in an "arbitrary and capricious manner."

Appeal Is Possible

An Agriculture Department spokesman said that the department had not decided whether to accept the court ruling and begin a commodity program or whether to appeal the decision.

The legal dispute concerns the unwillingness of the Agriculture Department to utilize a provision of the 1971 Food Stamp Act, which permits a county, in emergency situations, to operate both the food stamp program and the commodity distribution program. The department said that the two programs were not needed in Seattle.

In the commodity distribution program, the government supplies about 20 items of food, which are distributed by county welfare departments. Under the food stamp program, an eligible family spends part of its income to get stamps that can be used as money at grocery stores, which are then reimbursed by the government. A family of four with $200 monthly income, for example, spends $60 a month to get $108 worth of food stamps.

Judge Beeks ruled that Secretary Hardin had acted unlawfully by establishing a policy against permitting any county to operate both food programs.

Bipartisan Request

In line with the Agriculture Department's policy, the Nixon administration rejected a bipartisan request from state, county and city officials and the state's congressional delegation. The officials also unsuccessfully presented their case to John Ehrlichman, a former Seattle attorney and now the President's assistant for domestic affairs.

They pointed out that 106,000 people were unemployed in Seattle, which has been hard hit by cutbacks in the aerospace industry, and that many could neither qualify for food stamps nor afford them.

GE, French Firm Will Join to Build Jet Plane Engine

PARIS, Dec. 9 (UPI).—France has given the green light for a joint French and American project to build a 10-ton thrust jet engine, government officials said today.

Officials said the government would lend one billion francs for the development of the engine by the General Electric Corp. and SNECMA, a French aircraft engine builder.

The new engine should be ready by 1977 to equip a variety of planes such as civilian and military transports, vertical take-off and landing aircraft, and military anti-submarine planes.

To build the engine a new French-based company will be formed, with SNECMA and General Electric as equal partners. Aviation sources said other European companies will be asked to take part in research and development of the engine, but will not be included as owners of the new company.

U.S., Lisbon Agree to Extend Accord on Bases in Azores

By Tad Szulc

WASHINGTON, Dec. 9 (NYT).—Administration officials said yesterday that the United States and Portugal had negotiated a five-year extension of the World War II agreement granting the United States the use of air and naval bases in the Azores.

The pact is to be signed this week before President Nixon flies to the islands—1,000 miles west of Portugal in the Atlantic—on Sunday to meet President Georges Pompidou of France and Premier Marcello Caetano of Portugal. The pact provides for economic aid to Portugal for the first time in this quarter-century-old relationship with the United States.

The accord replaces one that lapsed nine years ago and could not be formally renegotiated until now because of differences between the two countries, especially over policies in Africa, where Portugal is battling rebels in its territories. The United States was permitted to continue using the facilities on Terceira Island under what has been officially described as "the courtesy of the Portuguese government."

State Department historians said records showed Portugal to be the only country receiving no economic aid from the United States in a military-bases agreement. Portugal has received military aid, although by agreement U.S. arms are not used against the rebels in Africa.

This year, officials said, Portugal requested economic assistance and the United States agreed to supply long-term loans for farm commodities and financial grants for educational projects.

In addition, Portugal will receive an oceanographic vessel for fishery research.

U.S. Army Drops Murder Charges Against General

FORT MEADE, Md., Dec. 9 (UPI).—The Army dropped murder charges today against Brig. Gen. John W. Donaldson, who was accused of killing six South Vietnamese civilians by shooting them with a rifle from his helicopter in 1968-69.

The announcement was made by Lt. Gen. C.E. Hutchin, commandant of First Army headquarters here, where Col. Oran K. Henderson is on trial on charges that he failed to investigate an earlier mass slaying of civilians at My Lai and later tried to cover it up.

The incidents involving Gen. Donaldson were alleged to have taken place after My Lai—from November, 1968, to January, 1969. The My Lai massacre was on March 16, 1968.

Gen. Donaldson succeeded Col. Henderson as commander of the 11th Brigade of the Americal Division and was in that position at the time of the incidents. The 11th Brigade was still operating in coastal Quang Ngai Province, which includes My Lai, at the time.

Ralph Bunche, of the United Nations, Dies at 67

(Continued from Page 1)

century breed of international officials who devote all their gifts and their very lives to the service of the community of mankind."

Three secretaries-general regarded Bunche as their principal assistant, and to many persons around the world he epitomized the United Nations. That he was an American and a Negro was incidental.

He simply knew more about the United Nations' fire-brigade capabilities than any other man, and he embodied the diplomatic skills that enabled him to run a virtual command post in the 38th floor headquarters here overlooking the East River.

As the UN mediator picked by Secretary-General Trygve Lie to succeed the murdered Count Folke Bernadotte at the time of the partition of Palestine, Mr. Bunche worked out the formula for indirect negotiations that led to Arab-Israeli agreement on the island of Rhodes. He received the Nobel Peace Prize in 1950 for his efforts.

During the 1956 Middle East crisis, under a different secretary-general, Dag Hammarskjold, Mr. Bunche did the detailed work in organizing the United Nations Emergency Force which helped prevent a new conflict for 10 1/2 years.

Item of Controversy

Paradoxically, he also advised the current secretary-general, U Thant, in May of 1967, that there was no legal alternative but to withdraw that emergency force when Nasser requested it and Egyptian troops overran UN positions. This recommendation, which he strongly defended, remained an item of controversy until his death.

In yet another peace-keeping assignment, Mr. Bunche organized the UN effort to prevent the spread of civil war in the former Belgian Congo after its independence in the summer of 1960. Ultimately, a UN force of nearly 20,000 men was involved.

His most important contribution to the United Nations, in the view of a close associate, was "his capacity for objective analysis and his very great integrity."

Mr. Bunche had a tough, analytical, highly disciplined mind, and a firm idea of how things ought to be done, this associate continued. He also had an intuitive sense of empathy for the parties to a conflict that frequently won him the trust of both sides.

Despite his heavy responsibilities, he had a keen sense of humor and could tell a good story. As a onetime football player, he also maintained an avid interest in sports. Staff members breaking in on what they supposed to be high-level conferences over the weekend sometimes came upon Mr. Bunche and colleagues watching the World Series or other sports on television.

He also was a quick man with a phrase. Told that the close-lipped UN intermediary to the Middle East Gunnar V. Jarring had replied "No comment" to an inquiry about his mission, Mr. Bunche shot back: "He must have been misquoted."

A pungent letter from Mr. Bunche to New York's Mayor John V. Lindsay about what he considered to be abominable snow removal in his Queens neighborhood after a severe storm in 1969 received much publicity and brought visible improvement—although, some say, at the price of neglect elsewhere.

Testy but Charming

Partly because of the delicacy of the situations in which he was frequently involved, he often was uneasy in contacts with the press. He could be testy with diplomats as well as reporters when he thought they were wasting his time; yet he could be charming and could captivate newsmen with his reminiscences.

Soviet diplomats, who frequently disagreed with him on policy, came to respect and praise his honesty. When he attended a conference in Yalta several years ago, Ambassador Jacob Malik voluntarily made special arrangements for him to be seen at a top Soviet eye clinic in Odessa.

Although he was impatient with the slowness of legislative change in effectuating full civil rights for Negroes, Mr. Bunche believed deeply in the American system's capacity to right wrongs. He was repelled by some of the methods of present-day black activists.

Mr. Bunche was a close friend of Martin Luther King and particularly of Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People.

When President Harry S Truman offered him a post as assistant secretary of state in 1948, he declined to move back to Washington to accept it, explaining that he did not want to live in a segregated community. Although he probably would have had special consideration, he said, he did not want to be treated differently from the remainder of the Negro population.

He was a friend of President Lyndon B. Johnson, who pleaded with him to reconsider his effort to retire from the UN in 1966.

One of his little known past activities was to write an unpublished first draft of "An American Dilemma," the monumental study of race relations in the United States on which he worked with the Swedish social scientist Gunnar Myrdal.

Orphaned at 13, after his family had moved West from his birthplace in Detroit, Mich., he was reared in Los Angeles by his maternal grandmother, Mrs. Lucy Johnson. He often credited her with being the formative influence in his life and teaching him the importance of dignity and self-respect.

He was graduated in 1927 from the University of Southern California, where he obtained a master of arts degree in 1928. He obtained a doctorate of philosophy in government and international relations at Harvard University, in 1934, and did post-doctoral work at Northwestern University, the London School of Economics and the University of Cape Town, South Africa.

For many years, Mr. Bunche was a resident of Washington, becoming head of the political science department at Howard University in 1928. During his teaching career, there and elsewhere, some of the later leaders of Africa were his students, including President Jomo Kenyatta, of Kenya, former President Amandi Azikiwe, of Nigeria, and Kwame Nkrumah, the former leader of Ghana. Mr. Kenyatta baby-sat for the Bunche family when they were in London.

Information and OSS

Joining the government at the beginning of World War II, he worked on African affairs with the office of the Coordinator of Information and later with the OSS. From there, he joined the State Department in 1944 and participated in the planning conference for the United Nations, at Dumbarton Oaks, and in the 1965 San Francisco conference.

After being loaned to the United Nations in 1946, he joined the permanent staff the next year. He followed his work in Palestine with a stint in the Department of Trusteeship Affairs dealing with the problems of emerging colonies. In 1950, he was appointed professor of government at Harvard University, but resigned without ever taking the post.

He served on the Harvard Board of Overseers and was a trustee of Oberlin College and the Rockefeller Foundation. He was awarded the presidential Medal of Freedom in 1963.

Mr. Bunche is survived by his wife, the former Ruth Ethel Harris, a daughter, Joan, who works in the UN development program; a son, Ralph Jr., who has been with the Army in Vietnam, and three grandchildren. Another daughter, Jane (Mrs. Burton Pierce), died some years ago.

Associated Press.

IN 1948—Ralph Bunche in Paris in May, 1948, with Count Folke Bernadotte, then UN mediator in the Middle East. Mr. Bunche replaced Count Bernadotte in September as the UN mediator after the latter was murdered. Mr. Bunche worked out the formula for indirect negotiations that led to Arab-Israeli agreement. He was awarded the Nobel Peace Prize for his efforts in settling the dispute.

French Quash Prison Uprising Over Yule Gifts

TOUL, France, Dec. 9 (AP).—Inmates of the Toul prison rioted today to protest restrictions on receiving Christmas presents. They had been rebellious over the same issue earlier in the week.

Tough elements among the 540 prisoners lit fires in their workshops while others ripped out bars from windows and climbed on rooftops and threw down tiles. Others hurled furniture out of windows.

Dozens of riot police surrounded the prison and took up positions in the courtyard inside while prison authorites tried to restore order. Firemen were called in to put out the blazes.

After the fires were put out, two squads of rifle-armde gendarmes stormed into the prisoner-held buildings, supported by two army bulldozers. The prisoners quickly returned to their cells, officials said.

Quake Spares Iranians

TEHRAN, Dec. 9 (AP).—A strong earthquake shook the Bandar Abass area of Iran on the Persian Gulf early today, the Tehran University Geophysics Institute announced. There were no reports of serious casualties but the institute said thousands would have been killed if it had hit a heavily populated area.

Obituaries

Josef Cerny, Exiled Leade Of Czechoslovak Republi

NEW YORK, Dec. 9 (NYT).—Josef Cerny, 86, the last surviving member of the pre-World War II government of Czechoslovakia living in the free world, died Tuesday in a hospital here.

Mr. Cerny was a member of parliament, minister of the interior and later political leader in exile in this country.

In the United States, he renewed the activities of the Czechoslovak Agrarian party and became a vice-president of the International Peasant Union and a member of the Committee for a Free Czechoslovakia. He was also a member of the Czechoslovak delegation to the Assembly of Captive European Nations.

Mr. Cerny was born on Feb. 28, 1885, in Nepolisy, Bohemia. He attended Vienna University and received a doctorate from Charles University, Prague, in 1911.

In 1918, when the Czechs and Slovaks founded an independent state, the Agrarian party, whose chief program was the social advancement of the peasant masses, named Mr. Cerny to the Prague Revolutionary Parliament. He served as a member of parliament during the 20-year existence of prewar democratic Czechoslovakia, also called the Masaryk Republic.

After the partition of Czechoslovakia at Munich in 1938, Mr. Cerny tried to preserve national unity and stability. When the Nazis occupied Czechoslovakia, he took a strong stand against the invasion, retired from public life and became part of the anti-Nazi underground.

He was jailed by the Germans, but the court that tried him refused to condemn him, stating: "Dr. Cerny was an apostle of uncompromising patriotism and of social and political peace; he demonstrated his love for the Czechoslovak Republic in our nation's most difficult days."

After the Communist putsch of 1948, Mr. Cerny left the country and eventually came to the United States.

He leaves his wife, Helena, the daughter of Antonin Svehla, was premier of the republic a close friend of Thomas G. saryk, its first president.

George D. Widener

PHILADELPHIA, Dec. 9 (N —George D. Widener, 82, o the most honored figures thoroughbred racing, died ye day at Erdenheim Farm, Chestnut Hill Pa., estate.

Mr. Widener was hon chairman of the Jockey Club the New York Racing Ass tion, having stepped dow chairman after long years in offices. He was also chai of the National Museu Racing in Saratoga Springs, where his patrician bearing courtly manner in victory, defeat made him a favori the racing world.

Last August, ill health him from receiving in perso first "exemplar of racing" a at the Saratoga meeting.

Mr. Widener, born in Phi phia, carried on a family tion as chairman of the delphia Museum of Art. Bu tradition closest to his hear horse racing, in which his Joseph E. Widener was a In 1913, the George D. W silks—light blue and dark hoops and dark blue cap appeared on the tracks. In Mr. Widener began thoroughbreds at Erden Farm and at Old Kennedy in Lexington, Ky., which ha in 1962.

That was the year in whi colt, Jaipur, won the Tra Stakes. His other well-k horses included Eight T Jamestown, What a Treat Bold Hour.

ds Surprised

uy, the chief North
delegate and his Viet
ue, Dinh Ba Thi, appeared surprised and irritated by Mr. Porter's move.

Mr. Thuy declared that the American delegate had given "inadmissible" reasons for not meeting next week and insisted that there be a session. But according to the rules of procedure, all four parties to the talks must agree on a date for a subsequent session. Until today this had always been set at the end of a given meeting.

Five times over the last three years, the Communists have refused to attend scheduled sessions which then had to be called off and rescheduled. No scheduling had taken place today when Mr. Porter made his sudden move to skip a week.

The result was that continuation of the deadlocked conference was up in the air while the Communists decided on whether to accept the Dec. 23 date.

The American side is understood to have no high expectation of getting a negotiation started Dec. 23 or any time soon. There is a feeling that many months may go by before a change of tactics by the Communist side is seen.

The spokesmen for the Communist side branded Mr. Porter's action "a premeditated act of sabotage" and a "vile maneuver with the manifest aim of lowering the level of the conference." Referring to Mr. Porter's charge, that his side was being "negative," Ly Van Sau, the Viet Cong spokesman, asked:

"What has Mr. Porter proposed that's new in the past two months?"

ntuk, which is nine miles south of the provincial capital of Kompong Thom and 87 miles north of Phnom Penh.

Am Loc Falls

The village of Am Loc, 3-1/2 miles south of the provincial capital, fell to the Reds today after two days of hand-to-hand fighting, Capt. Song said.

He said, "The command and the authorities are very worried about the thousands of refugees. I do not know how many, but there are thousands."

The Cambodian command in Phnom Penh said skirmishes, mortar and rocket attacks were reported on three sides of the capital last night and early today.

The command reported two clashes near Baset Hill, 15 miles to the north, and one in the south, where a new Red buildup was signaled yesterday.

U.S. Cobra gunships and Cambodian T-28 bombers supported all government troop actions in the Phnom Penh area, the command said.

U.S. Planes Active

A U.S. fighter-bomber attacked a missile site in North Vietnam yesterday amid heavy air activity by American warplanes, which killed scores of Communists in bombing raids in Cambodia.

The U.S. command said there were also three air-to-ground strikes in Laos and North Vietnam involving American jet fighters and North Vietnamese anti-aircraft batteries.

The command said an F-105 Air Force fighter-bomber on an escort mission over Laos swung into North Vietnam to attack a missile site 20 miles south of Dong Hoi after it had locked onto it with a radar beam. It was the 88th so-called "protective reaction" strike into the North this year.

There was no damage to the plane, and the results of its missile attack on the site were unknown, the command said.

Death Sentences Commuted by Sadat

Four Get Life in Cairo Treason Trial

CAIRO, Dec. 9 (UPI).—Four men who were convicted of leading 91 government, party and military leaders in a plot to topple President Anwar Sadat were sentenced to death today by a revolutionary court. The president immediately commuted their sentences to life imprisonment at hard labor.

The four are former Vice-President Aly Sabry, Interior Minister Shaarawi Gomaa, Presidential Affairs Minister Sami Sharaf, and Farid Abdel Karim Basyouni, an official in the Arab Socialist Union, Egypt's only political party.

Gen. Mohammed Fawzi, the former war minister, was tried separately by court-martial on similar charges of high treason and received a life sentence. Mr. Sadat commuted it to 15 years in jail at hard labor.

The three-man revolutionary court handed down verdicts against all 90 defendants who appeared before it in what government officials called Egypt's trial of the century.

14 Acquitted

Fourteen were acquitted and the others received jail terms ranging from one-year suspended sentences to 15 years in jail.

They had been charged with attempting to block Mr. Sadat from exercising his constitutional rights and creating a state of confusion within the country to enable Gen. Fawzi to seize power.

The defendants, including ministers and officials in intelligence, information, radio, housing, power, the parliament and the Socialist Union, all declared they were innocent.

Former Socialist Union leader Diaddine Daoud, sentenced to 10 years, shouted to court president Hafez Badawi, "Congratulations. You are a traitor to your conscience and your country."

He was led from the courtroom by policemen who attempted to silence him by putting their hands over his mouth.

Mr. Badawi told newsmen later, "We observed the law and the dictates of our conscience. We gave stiff penalties to the ringleaders and lighter ones to those who had been misled."

Mr. Sabry, who had helped Nasser overthrow the monarchy in 1952, had masterminded the plot, according to the prosecution.

Mr. Sadat moved to quash the rebellion in the government last May when Mr. Sabry opposed his plans to federate Egypt with Libya and Syria. Mr. Sabry was dismissed and five cabinet ministers were forced to resign and subsequently arrested.

The president later told the nation that a secret organization had been plotting against him and had even bugged his office with listening devices.

Investigators turned up stockpiles of weapons, radio transmitters, a printing press, incriminating tape recordings, burned documents, and other evidence of a plot, the prosecution said at the trial which started in August.

Israel Releases 627 Arabs and A Syrian POW

TEL AVIV, Dec. 9 (UPI).—Israel returned a Syrian prisoner of war today and announced the release of 627 convicted or suspected Arab guerrillas who had been captured in occupied territories.

A military spokesman said the Syrian, Pvt. Darar Ali Abu Ayd, was wounded and captured on the Golan Heights in a clash with Israeli troops last May 18.

Israeli doctors performed surgery on his wounds, the announcement said, but were unable to save the prisoner's right hand. An invalid, he was turned back through the Red Cross under the provisions of the 1949 Geneva accords on prisoners.

The 627 released prisoners and "administrative detainees" have been set free in the last two months as a result of what the spokesman called a review of their cases by a government-appointed committee.

The amnesty leaves fewer than 400 detainees in custody, the spokesman said.

Yugoslav Party To Purge Leaders On Croatia Issue

BELGRADE, Dec. 9 (AP).—Several top Yugoslav Communists are being asked to resign or face dismissal if "they are not ready to fight sincerely... for adopted polices." This was announced by the Executive Committee of the Presidium of the Yugoslav Communist party after a meeting yesterday.

President Tito, who attended the meeting, has said that the party is going through a crisis, which he attributed to the nationalism of some leaders in Croatia.

At a meeting of Croatian party leaders last week, President Tito denounced some of them as "sluggish, inactive and rotten liberals" in dealing with extreme Croat nationalism.

The showdown in the party came after 30,000 students at the University in Zagreb went on strike, allegedly to protest the Yugoslav foreign currency system. President Tito said that the strike was the work of counter-revolutionary forces. The purge of the Croatian party is expected to begin soon.

Prague Names New Cabinet; Few Changes

PRAGUE, Dec. 9 (Reuters).—President Ludvik Svoboda today announced a new Czechoslovak government, with only three changes, in the wake of general elections two weeks ago.

The most important change in the 24-member government, announced after the full session of the federal assembly, was the appointment of Bohuslav Chnoupek, currently ambassador to Moscow, as foreign minister in place of Jan Marko, who moved to deputy head of the federal assembly.

Mr. Marko had been foreign minister since the 1968 Soviet-led invasion of Czechoslovakia. His successor is regarded as an ultra-conservative.

Earlier today, the federal assembly elected Alois Indra, a member of the Communist party Presidium and once transport minister, as chairman of the assembly in place of Halibor Hanes, who drops to chairman of the 150-seat House of the Nations.

The other government changes were the appointment of Michal Sabolcik as chairman of the federal price bureau in place of Ignac Rendek, and the custer of Bohuslav Kucera as minister without portfolio. He was not replaced.

The only surprise was the re-election of Premier Lubomir Strougal, which appeared to break a long tradition of splitting up the top three state posts—president, premier and head of the federal assembly—between Czechs and Slovaks. Now, all three are occupied by Czechs.

Former Officials In Greece Urge Holiday Amnisty

ATHENS, Dec. 9 (UPI).—Three opposition politicians today demanded that the government grant a general amnesty for prisoners and lift martial law in time for Christmas.

In a statement distributed to newsmen, the politicians—former Premier Panayotis Kanellopoulos, former minister George Mavros and the speaker of the last Greek parliament, Dimitrios Papaspyrou—said that on the eve of one of Christianity's great feasts, "our thoughts and profound anxiety are turning toward those who continue to be prisoners or deportees."

The politicians, representing Greece's non-Communist political parties that have been banned, said that the military regime had recently invoked the argument that the number of imprisoned or deported political opponents had been reduced.

"The degree of injustice and oppression does not depend on the number of those who are the victims of injustice and oppression," the politicians said. "Hundreds of Greek citizens continue to be prisoners and deportees."

Mariner-9 Put On Reserve Power

PASADENA, Calif., Dec. 9 (UPI).—Something went wrong with the electrical system aboard Mariner-9, the U.S. satellite circling Mars, and its reserve power had to be switched on, Mariner scientists said yesterday.

Instruments keeping track of Mariner showed a sudden rise of 15 degrees in the temperature and the electrical output of the power unit more than tripled Tuesday, the scientists said.

They said the power unit had worked well since the spacecraft was launched more than seven months ago.

Ban on Married Priests

Pope Issues Final Documents Adopted by Bishops' Synod

By Paul Hofmann

ROME, Dec. 9 (NYT).—The Vatican today published a pronouncement by Pope Paul VI strongly restating the Roman Catholic Church's ban against married priests in the Latin rite.

"In the Latin church there shall continue to be observed in its entirety, with God's help, the present discipline of priestly celibacy," the pontifical statement said.

It appeared over the signature of Jean Cardinal Villot, Pope Paul's secretary of state, in an introductory note to two documents issued by the Vatican today.

The texts—on "The Ministerial Priesthood" and "Justice in the World"—were the final version of proposals formulated by the Synod of Bishops that was held here from Sept. 30 to Nov. 5.

Advisory Declarations

The two documents revealed little that was not already known. Cardinal Villot's note said in effect that the Pontiff considered the bishops' declarations to be advisory rather than binding.

Cardinal Villot stated: "The Holy Father reserves to himself to examine carefully in due course whether the proposals—and which of them—contained in the recommendations of the synodal assembly should be validated as directive guidelines or practical norms."

In a press conference today, the synod's secretary, the Most Rev. Wladyslaw Rubin, commenting on the two documents, also emphasized that they had to be regarded as "suggestions" rather than mandatory norms.

The most controversial item during five weeks of synodal debates was celibacy for Latin-rite priests.

At the close of the synod, a majority of 107 adopted a conservative formula advising the Pope that "the priestly ordination of married men is not permitted, even in particular cases."

A strong minority of 87 voted for a more liberal recommendation urging the Pope "in particular cases, by reason of pastoral needs and the good of the universal church, to allow the priestly ordination of married men, who are of mature age and proven life."

Uganda Reports Border Closing

KAMPALA, Uganda, Dec. 9 (Reuters).—A spokesman for President Idi Amin said here today that Tanzania had closed its border to all direct flights to Uganda.

"All flights scheduled from Tanzania or Dar es Salaam to Uganda have been directed to go through Nairobi," the spokesman said. "This therefore implies that Tanzania has closed its border with Uganda."

Direct flights between the two countries resumed 10 days ago following the reopening of the Uganda-Tanzania border by Uganda. Both countries have reported border clashes, including shellings, in recent months.

Poll Shows Tories Falling Farther Behind Laborites

LONDON, Dec. 9 (AP).—Britain's ruling Conservative party is falling farther behind Labor in voter popularity, the Daily Express reported today.

It published a Louis Harris opinion poll which recorded Labor as favored by 54 percent of the electorate, the Tories by 38 percent and Liberals and others by 8 percent. The figures a month ago were 52, 40 and 8.

The impact of soaring unemployment—almost a million people are out of work—has hit the government badly, according to a regional breakdown of the figures.

In the south of England, where there are most jobs, the two main parties are running neck and neck. But in Scotland, one of the worst jobless areas, Labor's lead is a massive 57 percent. In the north of England, Labor is 19 percent ahead, and in the industrial Midlands and Wales, 28 percent.

The Emergence of Bangla Desh

Defying a United Nations plea for a cease-fire, Indian forces appear on the verge of achieving New Delhi's major objectives in East Pakistan. These are the defeat of West Pakistani military repression in the disaffected Bengali Province and the creation of conditions that will facilitate the speedy repatriation of nearly 10 million refugees—Moslem and Hindu—to an independent, friendly and secular "Bangla Desh."

These would represent large short-term gains for the Indians, whose fragile internal stability has been gravely threatened by recent events in East Pakistan. The dismemberment of Pakistan would all but eliminate the menace of a militant Moslem neighbor which would be reduced to less than half of its original size.

But India will have paid a heavy price for these achievements, even if the wider war with Pakistan is speedily ended without further serious loss of Indian territory in the west.

New Delhi's resort to force without first exhausting all possibilities for a peaceful resolution of the conflict—especially the cold rejection of UN Secretary-General Thant's reasonable mediation offer—has shocked many of India's staunchest friends and alienated important segments of world opinion. India's violation of the United Nations Charter and defiance of the General Assembly has sharply diminished India's once proud moral standing.

India's support for full Bengali independence may have been made inescapable by the incredibly short-sighted and brutal policies of the Pakistani government, but no one—especially the Indians—can ignore the new dangers and problems that will be posed by the emergence of Bangla Desh.

The success of secession in East Bengal could touch off a chain reaction of separatist demands throughout the subcontinent, in India as well as Pakistan. Desperately poor and heavily overpopulated—the present population of 75 million is expected to double in 20 years—Bangla Desh is likely to become a breeding ground for domestic unrest and a lightning rod for foreign meddling. It could become a magnet for the Bengalis of India and a destructive influence on the delicate structure of Indian unity.

To avert further impoverishment, fragmentation and conflict throughout the subcontinent it is essential that leaders in Delhi, Dacca and Islamabad thrust aside present divisions and acrimony and join in a search for new ties and institutions that will enable them to attack overriding common problems in dignity and peace. As the emerging dominant power, India has a special responsibility to assert the moral leadership for reconciliation that has been so sadly lacking in the present conflict.

THE NEW YORK TIMES.

Defending the 'Free World'

A too-easy willingness to extend help to dictatorships and an indifference to the struggles of suppressed peoples for self-determination continue to characterize the foreign policy of the Nixon administration. President Nixon's decision to reactivate an unnecessary agreement with Portugal for American bases in the Azores and to supplement it for the first time with economic aid is only the latest manifestation of this tendency.

For protocol reasons, if Mr. Nixon is to meet the president of France in the Azores next week he also has to meet Premier Caetano of Portugal. Renewal of the base agreement provides a handy trapping for the latter meeting; but the affair goes much deeper than that. An administration that renewed last year an agreement for bases in Spain, buttressing it with $300 million in aid and a pledge to "support the defense system" of Generalissimo Franco, would hardly balk at a somewhat similar deal with Portugal.

To many democratic governments, the Nixon pattern seems clear. In addition to the deal with Spain they note Washington's pro-Pakistan policy on the Indian subcontinent, the current White House visit of Gen. Medici of Brazil, the recent Latin-American itinerary of presidential counselor Robert H. Finch and the travels of Vice-President Agnew, including the visit to Greece that bestowed a coveted respectability on the junta.

For non-white governments, especially in Africa, the pattern also is evident. They know the administration made no effort to block the bill in Congress that orders the President unilaterally to break United Nations sanctions and resume chrome imports from white-ruled Rhodesia. They know, whatever Washington may say, that the new pact will help Portugal meet the costs of its colonial wars to preserve white minority rule in Angola, Mozambique and Guinea Bissau.

The bitter irony in the deals with Spain and Portugal that so tarnish the standing of this country is that they are not essential for American or NATO defense. The bases are conveniences, not necessities, in an era of nuclear submarines and long-range jet bombers. When he toasts the agreement with the head of a Portuguese government guilty of repression and censorship at home and old-fashioned colonialism in Africa, perhaps Mr. Nixon will refrain from the pretense that the pact has anything to do with defense of the "free world."

THE NEW YORK TIMES.

International Opinion

Indo-Pakistani Conflict

Some countries by covering up the truth blame India for the ever more disastrous tragedy, or simply put a sign of equality between the two belligerents. . . [The United States] for the sake of her SEATO partner preferred to let the conflict deteriorate instead of supporting a political settlement in Pakistan. . . [China] is on the same platform with the leading imperialist power, which for many years has been committing aggression against the peoples of Indochina. . . The Chinese have given their blessing to the extermination of a people whose only offense is that they voted democratically.

—From Magyar Hirlap (Budapest).

* * *

In New Delhi it is expected that the Soviet Union will soon follow India's example in granting diplomatic recognition to the government of Bangla Desh. But India's real problems will first begin when the new nation of 75 million people has taken its place on the map of Asia. Bangla Desh is situated at the gateway to China, on the strategically important Bay of Bengal, and will certainly feel the effects of the struggle between Moscow and Peking for influence in Asia. Delhi's hope of having a stable neighbor friendly to India may very soon prove illusory.

For one thing, it is possible that the Awami League, despite its election victory, may never be able to organize a government in Dacca. Mujibur Rahman will not be available to head it: Without him, the students and leftist parties who lent him their support consider the Awami League as bourgeois, corrupt and incapable of solving the most pressing social problems. The leaders of the "Mukhti Bahini" guerrilla movement, who have been risking their lives for the past eight months, may also refuse their allegiance to the Awami League.

So it is quite possible that, after the "liberation" of Bangla Desh by the Indian Army, there may follow a long period of internal political struggle which will benefit primarily the left-wing radical groups of Marxists and Maoists. And if Indian troops are kept in East Bengal for a long time, there is a danger that they will soon be decried as an "army of occupation" by the fiery and anti-authoritarian Bengalis.

—From the Neue Zuercher Zeitung (Zurich).

* * *

Each day's fighting means more villages flattened, more crops destroyed, and more refugees, millions more—sick, homeless, hungry. The Americans' suspension of aid to India won't help. It is a futile effort to keep their hands clean. And there's nothing to be gained. . .by putting up well-meaning calls for a cease-fire in the United Nations when Russia is bound to veto them.

Where the UN can help—where we can all help—is in getting ready to look after the refugees. This time we have no excuse for being caught unprepared for human misery on a scale which the world may never have seen before. Let us see to it that this is the greatest relief campaign that the world has ever known.

—From the Daily Mail (London).

In the International Edition

Seventy-Five Years Ago

December 10, 1896

ANNAPOLIS—The use of homing pigeons as messengers has received considerable attention at the Naval Academy. The service is increasing gradually in this country and in Europe, due to the practical application of the wonderful homing instincts of these birds. The great usefulness of homers for conveying messages has been demonstrated in numerous ways, especially when no other means of communication is at hand.

Fifty Years Ago

December 10, 1921

PARIS—All-out war has been declared by the police, led by the Prefet Mr. Leullier, against the innumerable dealers in cocaine, morphine, and "dope" in general, who have infested Paris and especially the Montmartre "red light" districts since the war. In the first offensive, in which twenty arrests were made, including 13 dancing girls at various cabarets, all the culprits were seized when they were making sales.

Realities Behind the Berlin Accord Impasse

By David Binder

BONN.—The deadlock between East Germany and West Berlin on fixing final details of the four-power accord on Berlin has laid bare a conflict between East and West German interests, in the opinion of experts on both sides.

The impasse developed early Saturday when it became evident that the negotiators were far apart on the question of regulating visits of West Berlin's two million people to East Berlin and East Germany. The visits were called for in the Big Four agreement on Sept. 3, and it was left to West Berlin and East Germany to settle the details.

As a result of the impasses, initialing of this subsidiary accord and the already complete parallel accord regulating transit between West Berlin and West Germany had to be postponed indefinitely.

The initialing ceremonies, which would have wrapped up the package agreed on by the United States, Britain, France and the Soviet Union, had been set for Saturday.

The postponement was a startling disappointment for everyone involved and has already upset the East-West timetable for further steps toward easing tensions, including plans for a security conference and talks on mutual troop reductions.

The Core

The core of the matter, as outlined by knowledgeable officials on both sides of the Berlin Wall, is the question of how much traffic can be borne between the two parts of the city.

On the Western side there is interest in liberating the West Berliners from their "ghetto situation"—as one put it—by allowing them to visit their relatives in East Berlin and to travel in the countryside.

On the Eastern side there is palpable fear that sudden influxes of hundreds of thousands of West Berliners could seriously disrupt East Germany's traffic, service industries and morale.

"After the Berlin settlement is complete I'd like to drive over to Buckow for Sunday afternoon coffee," a West Berlin hotel employee remarked.

When a Western visitor related this wish to a Communist official, the East Berliner winced. "Of course, Buckow is beautiful," he said. "But it is always full with our own tourists and people going on excursions. We just don't have enough room."

"We have only a thin layer of convinced Communists," a party man said, "and I am frankly worried about what will happen when masses of West Berliners come over with their good clothes and cars and money to spend. It will be a grave problem for people who are just getting used to living in a socialist state."

Most Concerned

Among the East Berliners, most concerned about the completion of the Berlin pact were the blue-uniformed Communist customs officers who examined Western entrants with time-consuming thoroughness.

The customs officers showered Western correspondents whom they recognized with questions about the outlook for completion of the accord.

"We already work like dogs," one said, "because we don't have enough personnel. But it will be even worse when the West Berliners start coming."

These and related concerns are what moved the East German negotiator, Gunter Kohrt, to insist on certain limits regulating the flow of West Berliners into East Berlin and East Germany.

He made clear his government could not accept an arrangement under which all West Berliners would be able to obtain entry permits at all times, including weekends, and to enter with their automobiles. "I thought you wanted visits to relatives," he told the West Berlin negotiator, Ulrich Muller, "and now you want to have an automobile show on our streets."

To the West Berlin authorities, this reticence constituted a breach of the four-power principle that West Berliners should get treatment in regard to visits to East Berlin "comparable to that accorded West Germans," who travel 110 miles across East German territory to reach West Berlin and then pass on to East Berlin.

But the two categories are not "comparable" and there are some on the Western side, including Chancellor Willy Brandt's chief negotiator, Egon Bahr, who acknowledged this. Bahr flew to Berlin to try to smooth the ruffled feelings on both sides.

"What we need," said a Bonn observer familiar with the details of the impasse, is "an atmosphere of mutual confidence and that is hard to establish after all the bad blood between East and West Berlin.

"The East also needs a trial period to make sure they can cope with the new situation. It would be foolish for us to insist on principles alone."

NATO and the Dollar Crisis

By C. L. Sulzberger

BRUSSELS—Joseph Luns, the enormous Dutchman who is NATO's new secretary-general, has a big enough sack of troubles to suit some sombre kind of Santa Claus but, as he made clear at the alliance's current ministerial meeting, the most urgent among all these is monetary.

For him the tension can be simply stated: If the existing currency and economic crises in the allied world cannot be settled—and quickly—the whole defense structure threatens to fall apart.

In such a negative case the following things might be expected to happen. Mutual commercial and financial rivalries between individual NATO members would lead to retaliatory measures among them and an end to allied cohesion. This would completely undermine the American position in Washington's negotiations with Moscow on mutual and balanced force reductions between East and West.

The Russians would simply lose interest in any such mutual deal. They would prefer to sit back and watch a unilateral Western force reduction develop as the alliance came apart. This certainly would be the case if financial and trade arguments in the West were not speedily settled.

There isn't the slightest doubt, Luns points out, that the NATO position vis-a-vis that of the Soviet Union has been steadily deteriorating during the past four years. Russian naval power has advanced by leaps and bounds both in submarines and surface vessels.

Makes No Bones

Its strategic position has zoomed in the Mediterranean where base facilities were made possible in the vacuum opened by the Arab-Israeli war. Finally, the massive Soviet naval force at Murmansk has now been backed up by an impressively large assemblage of land forces breathing dangerously down the back of Norway in the far north.

The secretary-general makes no bones about being impressed by Moscow's extraordinary accomplishment during the past 12 or 13 years. In that brief span of time it has managed to construct a huge and sophisticated new fleet, gain in relative military strength in Europe, and assemble and station an enormous armed force along its Chinese frontier to the east. This investment in military matters of an excessive proportion of the U.S.S.R.'s annual budget has strained civilian development.

Nevertheless, Luns insists, the "minimum" strength required by NATO to maintain its basic strategy of flexible response continues—if barely. Flexible response means initial reliance on conventional defense except against all-out nuclear aggression. But there is not a millimeter of fat left on this "minimum."

For all these reasons Luns urged allied foreign and defense ministers this week to prod their governments into swift action heading away from the slough of currency crisis and the menace of widespread recession. The U.S. presidential election comes next year and after March, 1972, and the New Hampshire primary, he fears that American preoccupation with politics could hamper further international discussion.

But if at least the monetary problem can be resolved by then—obviously accompanied by revaluation of some currencies and devaluation of the dollar—the way would be opened to accord on other matters. Then one could count on perceptibly larger European contribution to NATO defense. But the latter is contingent on the former.

"There is no chance—unless the currency question is settled first," he says. "But even before that happens we have seen a comprehensive decision that finds the European allies pledging about $1 billion more for NATO, half in money and half in services."

He points out that 80 percent of all troops now in Europe to defend the alliance come from European allies, that the British have added about $250 million to their defense budget, that Holland is already spending more and may revise its budget upward.

However, final implementation of all this is contingent upon one thing—that members of the alliance, who comprise so important a percentage of world finance and world trade, come to prior agreement on economic matters. If they cannot find a satisfactory formula for living happily together in peacetime it is unlikely they will find a similar formula for either deterring war or winning one.

This meeting has, in effect, been forced to devote itself to dollar diplomacy. That is to say, devising means for the dollar to survive and thereby to sustain the United States, NATO's ultimate prop.

Letters

Jolted

I was jolted by your Dec. 3 Page 1 headline: "Cairo Bars Consulting Russia Over Starting Mideast War."

This looks like real trouble for Israel. If the Cairo bars go ahead on this, Israel could find itself in a situation similar to that faced by the Americans in the pre-Castro Cuba of 1946. The world has grim recollections of how, in that year, a terrible fire destroyed much of the extensive entertainment district in the town of Caimanero, just across the bay from the U.S. Naval Station at Guantanamo Bay. When the Caimanero fire brigade could not control the spreading flames, the U.S. Navy did not hesitate, of course, to send its better-equipped firemen across the water and into the fight. The fire, gracias a Dios, was contained before all the bars and joints were burned down.

Then, as in a certain Asiatic war, the nature of the American involvement revealed itself. Since so many of the gallant U.S. Navy smoke-eaters failed to return to base, a sort of escalation was necessary. A squad of U.S. Marines had to be sent over to search out their missing countrymen from those bars and those joints. But alas, many of our valiant leathernecks also were snared and failed to return. We finally got most of those brave lads back.

No, Golda Meir, don't let it happen! Profit from the American experience; save the Israeli Army from having to fight its way through all the bars of Cairo with almost certain ensnarement assured. Your lads might never return and if the face of Egypt were changed, whose responsibility would it be? Please dear lady, get to a negotiating table with President Sadat while there is still time. Even provide the table if you have to.

HAROLD P. CONROY.
London.

India and Hypocrisy

Isn't Mrs. Ghandi's slip showing?

When Israel's security was threatened—and threatened a lot more dangerously than India's is at the moment—it moved to save itself.

And India joined the nations condemning Israel at the UN. Now India finds itself in the same, albeit weaker, position and wants the issue kept out of the UN. My private reaction is that Pakistan brought its problems on itself and that India is more right than wrong in taking action.

What I object to is the hypocrisy of India's stance today versus four years ago.

A. GOLDMAN.
Brussels.

No to Bogeymen

James Burnham's article, "The Greek Colonels As Bogeymen" (IHT Dec. 2), while ostensibly a refutation of the charge that the present Greek government is fascist, winds up merely as an apology for a bad government. He says that there has undoubtedly been some torture, but that such things are to be expected in the overthrow of a regime (and presumably for some years thereafter). I disagree. He ends by comparing Greece with other poor countries and concludes that, in this light, the Greek regime really isn't so bad. The fault in the logic here is self-evident. Mr. Burnham may or may not be right, but he unfortunately uses arguments too weak to prove his point.

BRUCE L. BURROWS,
Nicosia, Cyprus.

JFK Years

David Broder's article on the anniversary of JFK's death (IHT, Nov. 25) is a moving fragment about an unforgettable chapter of American history.

To say how correct and lively is his judgment, I will just recall this episode: On Monday, Nov. 22, I took to the Novodievici Cemetery an Italian friend to see Mr. Khrushchev's unadorned grave. My friend, on old admirer of Pope John, knew of Nikita's remark in late 1963: "Now that Pope John and John Kennedy are dead, with whom shall I talk about world peace?"

Looking at Khrushchev's grave, we were both thinking of Arlington's flame. Time goes fast, but the history of the JFK years will stay with us forever.

ILARIO FIORE.
Moscow.

Noting th
Good Day
For Nixo

By David S. Brode

WASHINGTON.—It has bee
good few weeks for Presid
Nixon. He has demonstrated
peatedly in the past month a
whatever the vulnerability of
basic political position, he is
a man whose tactical skills in
game of politics are to be und
estimated.

In recent weeks, Mr. Nixon
scored clear-cut victories in
arena of public opinion, legis
tive maneuver and tactical
vantage for the 1972 campai
over AFL-CIO President Geo
Meany, Democratic Natio
Chairman Lawrence F. O'Br
House Ways and Means Co
mittee Chairman Wilbur D. M
and the whole field of Dem
cratic presidential contend
none of whom are exactly am
teurs at the game of feint a
maneuver.

By bluffing the Democrats
of O'Brien's bold effort to fina
the 1972 presidential campa
through a tax-checkoff Treas
subsidy, Mr. Nixon kept int
one of his major advantages
1972—the affluence of the
publican treasury as compa
to the Democrats' deficit.

He did so by exploiting
ever-present division in Dem
cratic ranks—threatening M
with defeat on the floor of
House, through the defection
a sizeable bloc of Southern Dem
crats, who have no special w
to help the election of a Nor
ern liberal Democratic Preside

Another key to his success
his ability to put the Democr
in the position of seeming
jeopardize a cause of natio
importance—passage of the
bill—by a maneuver for parti
advantage.

Odds With

That is one advantage of
cumbency that Mr. Nixon clea
understands; in matters of la
importance, the President is
symbol of national enterpr
and those who challenge h
however legitimate their purp
in political terms, risk a backl
when they seem to be putt
partisan interest ahead of
presidentially-defined natio
interest.

The Democratic Congress—a
particularly the Senate—has be
rather insensitive on that poi
It has played fast and loose w
the President on major issue
killing foreign aid one day, loa
ing the tax bill with unconsc
nable amendments another. Af
three years, Mr. Nixon has s
not been able to get a strai
up-or-down vote on such signi
cant proposals as welfare refo
and revenue-sharing [illegible]
proposals for reform [illegible]
ment have been pigeonholed.

It is safe to say that he w
point this out to the country
coming days, and in next yea
campaign, if the record rema
unchanged.

The other thing he will d
as George Meany can now test
—is to cloak himself in the d
nity of the presidency and m
it seem that every attack on h
is an insult to an office wh
the American people, for all th
cynicism, still like to think
serves respect.

It was Meany's blunder t
allowed Mr. Nixon to cast
confrontation with the AFL-C
chieftain, not as a debate on e
nomic policy (where the Pre
dent is still on shaky groun
but as a question of good ma
ners and proper regard for
presidency, where opinion is
most unanimously on Mr. Nixo
side.

The lesson should not be l
on the Democratic president
contenders. During the win
and spring, when they are vy
in their criticism of Mr. Nix
for votes in the Democratic p
maries, he is going to be off
China and Moscow, negotiat
as chief of state with the lea
ers of the other superpowers.

It will take great skill on t
part of the Democrats to disti
guish criticism of Mr. Nixon, t
prospective Republican nomin
from an attack on the Preside
of the United States, who is,
conference with the premier
the Soviet Union or the Peopl
Republic of China.

If they cannot make this d
tinction more skillfully than th
have in the past month, [illegible]
Mr. Nixon has shown he can t
their tactical mistakes agai
them—to his own advantage.

h figures were sent
es by people who
o go themselves. The
replaced" the would-be pilgrims on trips to holy places.

Mr. Feyaerts says these figures are sometimes sought today for black magic rites—by people who wish to "injure" an enemy by sticking pins into a wax figure representing the enemy. "I don't display them in the window," he says. "And if I know a customer is buying a wax doll for wicked reasons, I say we are all sold out."

Dolls aside, the firm's speciality is made-to-order candles. You can order anything from tiny birthday-cake candles to monsters as thick and twice as tall as a man, in any size or shape.

Three Methods

Feyaerts-Gommers has three methods of making candles: dipping a wick into liquid wax until it has the desired thickness; rolling soft wax around a wick; and pouring melted wax into molds.

Pure beeswax is used as well as a secret wax mixture which imparts additional qualities such as non-dripping to the candle. Beeswax, the Rolls Royce of candle making, does drip slightly due to its high sugar content but it more than compensates for this fault with its delicious aroma.

A rare ancient-style candle, also a speciality of this firm, is the *rat-de-cave* or rat-tail. Thin golden coils, about the thickness of heavy twine 10 feet or more long, are wound up like rope. Such candles were originally used to light one's way into dark cellars to search for a bottle of wine. The tiny flame burns slowly. The candle is very adaptable as it can even be shaped to reach around corners. Today the rat-tail candles are most often used for lighting fires in hard-to-reach or dangerous spots, such as gas heaters.

A display at Feyaerts-Gommers in Brussels.

'Ordinary' Candles

An ordinary handmade candle with a life-span of 10 hours costs 22 Belgian francs (about 50 cents). A pure beeswax candle with the same burning time and golden streaks of light and dark wax is more than twice as expensive. A fat candle, about a foot tall with a 300-hour life is 390 Belgian francs (about $8).

Mr. Feyaerts prefers that customers bring their candle-holders in for him to see. He can then suggest dimensions and height, colors and appropriate burning time.

He prides himself on being able to supply any color—he can match the hostess's gown or the flowers for a dinner table. He can of course produce candles that will not flicker out until the party is over.

"I'm a good judge of character," he says. "If customers are particularly personable, I know their parties will last longer than they expect and I supply a candle with several hours more burning time."

e Vogué and Salvador Dali

Mao and Monroe
. . . *detail from cover.*

As a result, the magazine has no fashion to speak of. Instead, it is a surrealist montage of a number of fascinating if totally unrelated subjects.

Marcel Proust, honored "because he is such a refined personality," is followed by a tableau on the beach in front of Dali's house, in Cadagues, Spain. Ophelia corpses and armored knights drift in the water—all with erotic undertones. Dali's homage to modern technology: a couple of pages on holograms, invented by Prof. Denis Gabor (recipient of the 1971 Nobel Prize for Physics).

The Christmas feast, again strictly Dali, is a collage with a pheasant on top, its gold heart filled with Gala's head. Below, a woman, dressed in lobster claws, stands on a plate of blood while red sausages drip down like red rain. Cathedrals flank the base.

The beauty pages are another spoof which should shake beauty editors right out of their false eyelashes. Under the headline: "How to acquire a fascinating look," Dali has a picture of Sainte-Cécile, carrying her eyes on a platter.

The homage to Gala consists of four pages and a poem in English which starts: "I call my wife, Gala, Galuchka, Gradiva..." and goes on with the château he just gave her and which she accepted "on one condition. That I can only visit on written invitation."

Other demands from Gala, who, it seems, can out-Dali Dali: "Chairs that won't touch the floor and six stork-legged elephants to take her to the pool decorated with 27 ceramic heads of Wagner."

With all the purposeful, careful and calculated nonsense, the Vogué-Dali issue is highly entertaining and is bound to become a collector's item. Dali has worked hard at it, even changing the ads. A banal Saint Laurent tie becomes a Dali explosion while Porthaut sheets are turned, with a few Dali strokes, into a piano.

The magazine will sell for 25 francs but a special numbered issue (only 300 copies) will cost 500 francs because it will include an original Dali dry point.

ad forced into complete retirement except for emergencies.

"Mr. Yue never holds back bad news and he never tells you simply what you want to hear," said Mrs. Lo. "He told me that my daughter would not have a change of luck for five years and it turned out to be true."

When Mrs. Lo recently moved from a mansion where the family had lived for two generations to a luxury apartment, a change foreseen by Mr. Yue which absolutely staggered her, she stabilized the move by inviting the Fung Choy man to inspect the new premises.

The Fung Choy man is a special category of fortune teller who holds a revered position in the Hong Kong Chinese community. His study of wind and water and all the elements in relation to a personal horoscope on a given day is considered essential whenever anybody makes a move. The Fung Choy man advised Mrs. Lo on how to situate the bed to insure the continued happiness of her marriage. He also told her where to place the desk in her husband's study for the prosperity of his affairs.

Checkups

Mrs. Lo calls on Mr. Yue twice a year as a regular checkup but drops in from time to time on behalf of her family or an acquaintance in a quandary. This was the case of one of her friends, Mr. Chang, the vice-president of a bank, who was perplexed about the wisdom of a certain investment. Mr. Yue assured him he could go ahead since he was in a felicitous cycle but added the clunker, "You are a man of high position and people think you have a great personal fortune. This is not so because your door is too narrow."

That hit the target and Mr. Chang has been concentrating ever since on how to widen that door. Despite his title, he really doesn't have any money.

Not long ago, Mrs. Lo took one of her daughter's Occidental friends to Mr. Yue. They walked up a flight of stairs to an apartment which resembled a doctor's waiting room. There were a number of chairs and a stack of magazines to occupy those who were waiting their turn for a talk with Mr. Yue. At the end of the room behind an impressive desk sat a scholarly looking man impeccably dressed in a beige cheongsam. At his left was a large file cabinet with case histories of his regular clients.

The man gave no personal details about himself beyond his dates which Mr. Yue checked in a well-thumbed Chinese manual, and ascertained he was a Little Dragon. Mr. Yue then moved on to the real him, measuring the length and width of his fingers and scrutinizing his physiognomy in slices. Each section of the face represents a different stage in life.

By the time he had finished peering at the chin, he was able to tell Mrs. Lo that her friend's worst periods were over. He would never have many children. He would become more famous and money would keep coming to him without his working so hard for it.

The man did not scoff. Once before his fortune had been told by a Chinese who had informed him that a difficult boss would soon be removed. He had calmly waited for two years and the axe fell.

According to the Chinese calendar, this is the Year of the Pig; 1972 will be the Year of the Rat. Rat people, in Mr. Yue's book, are brave and adventurous if born at night but the opposite if born during the daylight hours.

Paris Entertainment

Truffaut's New Movie—Oceans of Tears

By Thomas Quinn Curtiss

PARIS, Dec. 9 (IHT).—François Truffaut is among the most independent film makers in France—or anywhere else these days. Aware that public taste is fickle, he changes subject matter each time—not to court favor but to please himself. He has led trends and he has found himself up blind alleys, but the bravery of his ambition is commendable even when his judgment fails him.

In his new film, "Les Deux Anglaises et le Continent" (at the Concorde-Pathé, the Quartier-Latin, the Mayfair and the Clichy-Palace), he again attempts something different from what he has done before. This time he has taken a lachrymose account of two English sisters who pine hesistantly for the affections of a visiting French youth. The period is La Belle Epoque with the action shifting from England to France. The color photography reflects the pastel tints and shadings of the impressionist canvases and the spirit of the scenario is that of the Victorian novel. There are oceans of tears and mountains of misunderstandings, while the number of letters exchanged would break a postman's back. Truffaut has fallen in love with an era, but he would have been better served with a script not less sentimental but lighter in tone.

The contrasting of British and Gallic mores is solemnly depicted where a touch of mischievous humor—as in the witty Gérard Philipe movie, "M. Ripois"—would have dispelled the monotony of the material. The screenplay, based on a novel, has been unsatisfactorily dramatized as the employment of the voice over technique—to elucidate the narrative—betrays. All is grave, poised, archly reserved, of a single emotional hue. H.V. Esmond's picturesque comedy, "One Summer Day," set on the banks of the Thames on a warm June afternoon with its punting party come to picnic would have been a more rewarding choice for Truffaut's nostalgia for the 1890s. As it is, his latest film, glum rather than tragic, lacks theatrical vitality and his customary playful charm. It is what was known in the period it pictures as a "weeper."

Jean-Pierre Léaud as the French heartbreaker, Stacey Tendeter as the maiden stricken with temporary blindness and pathological shyness and Kika Markham as her less beset sister contribute competent portrayals within the frame of a mannered and lifeless movie.

* * *

The Dracula theme is with us again this week at the Paramount-Elysées with Delphine Seyrig as a bloodthirsty vampire in "Les Lèvres Rouges."

For more than 40 years, Dracula in many guises has been bringing in a fortune at the box office. It all started in the 1920s when Horace Liveright, the publisher, found himself with the rights to Bram Stoker's thriller "Dracula" and decided to put it on Broadway. His friends counseled him against it. "Why," they warned, "an audience today (1927) would laugh such ridiculous rot right off the stage." Undeterred, he engaged a Hungarian actor, Bela Lugosi, to play the bloodthirsty count. The play ran for three years. When Liveright sold the movie rights, the negotiations included a post on the board of the film company. Later, forced into bankruptcy, he had to sell his publishing house. But Liveright, for the rest of his days, retained his position on the film company's board and, with it, a comfortable salary.

Since then, the original has been made, remade and made again and its essentials often cribbed.

"Les Lèvres Rouges" is a Franco-Belgian variation on the Stoker theme. Delphine Seyrig is a pictorial improvement on the cadaverous Bela and the script has been embellished with a "Last Year at Marienbad" atmosphere. But basically it is the familiar, foolish premise of old. Miss Seyrig, crimson-lipped, is an ageless vampire who haunts a resort hotel in winter and preys on a young honeymooning couple, lusting for their hot blood with a white horror that will set the hair of halfwits on end. Additional comment on this neo-nonsense seems unnecessary but the reception that some French critics have accorded this art work would make even the grim Dracula laugh.

* * *

Alexandre Medvedkine's 1934 film, "Le Bonheur" (at the Studio Alpha), never seen before outside the Soviet Union, refutes the notion that Russians have no sense of humor. Here is a merry, slapstick comedy, obviously influenced by Chaplin, Buster Keaton and Mack Sennett, about the imposition of collective farming on Ukrainian peasants, not in itself exactly a hilarious subject.

Medvedkine, a Red Army veteran of the revolution and a disciple of Dziga Vertov who founded the "camera eye" school of documentary, relates in a preface how he was placed in charge of the cinema-trains which traveled through Russia in the 1930s for the purpose of shooting films on local problems. Though borrowing from the Hollywood comic masters, Medvedkine, hailed by Eisenstein as the Bolshevik Chaplin, invented a style of his own, using Chagallesque décor and broad buffoonery to create a folk-fairy tale of high originality.

Liza Minnelli at the Olympia

Liza Minnelli's return to the Olympia is a cause for general rejoicing. Here is music-hall entertainment at its very best. The art, it is reassuring to learn, has not been lost. The consummate professionalism of this performance is a delight. She has brilliant style, boundless energy and a wonderful, winning generosity.

Miss Minnelli has inherited her mother's way with a song and her father's presentation talents. Her show is vitally alive. She comes out first in a dashing scarlet dress, to sing "This Time," "When You're Down and Out," "Remember I Love You" and a ditty about the trying mispronunciation of her given name. Later she comes back in purple hot pants to cut up with the American Sunshine Boys, an amiable rock ensemble.

At the end she is back in knickerbockers to pay tribute to Bojangles with a tap dance and to sing selections from "Les Parapluies de Cherbourg," Aznavour in English, the minstrel favorite "Mammy," and the theme song of her forthcoming movie "Cabaret." She is on for an hour, but it is rush hour and one wants to stop the clock and remain in her stimulating company.

On the supporting program are Stephan Reggiani, son of Annie Noel and Serge Reggiani, a youth of pleasing presence and pleasing voice; the sardonic caricaturist, Piem, with his malicious pencil; the strong-armed Elwardos who walk on their hands; the juggling Italo Medini and a rackety trio from Athens.

T.Q.C.

THIS IS THE TWIN SEAT ON TWA's AMBASSADOR SERVICE IN ECONOMY.
NO OTHER AIRLINE HAS IT.

It can be three across. Or when the plane's not full, two across or even a couch.

You'll find it on all our 707's, a small part of TWA's total Ambassador Service to America.

First we threw out the old seats. Then we threw out the old everything else.

Now you'll find new colours, new fabrics, new carpets. In fact, new everything else.

As well as one or two other things exclusive to TWA passengers.

You'll be offered the choice of three meals in economy, for example.

Most airlines give you no choice.

And you'll have the choice of two films.*

Most airlines show one, or none.

Then we have a new terminal in New York (for TWA passengers only). You can be through it, having cleared customs and immigration inside twenty minutes.

Most airlines still share one old terminal.

However, we feel it's our twin seat that may tempt you to try TWA next time you fly to America.

If so, we're sure it's our total Ambassador Service that will make you fly back with us.

TWA

*IATA requires us to make a nominal charge for in-flight entertainment. And for alcoholic beverages in economy class.

PARTNERS

International Leisure Business

Established international company, with a unique product that encompasses the broad range of the leisure industry, plans to expand operations into Europe during 1972. We are seeking partners in each of the countries who can make a significant contribution. We are willing to sell a minority interest to either private persons or a public company. Principals only. **Box 30,249. HT, 28 Great Queen Street, London WC2.**

FRANCHISES

ONE OF THE LEADING PARIS HAUTE COUTURE HOUSES

wants to extend the network of exclusive boutiques under its name for women's and men's ready-to-wear as well as various apparel and accessories bearing its label and is looking forward to contacts with owners of shops suitably located in the principal European cities, in view of establishing such boutiques on a franchise basis. All further details will be given upon receipt of reply addressed to:

Box D 2,944, Herald Tribune, Paris.

COMMERCIAL REALTY

Large factory complex for lease in England near London Airport

This is a first class opportunity for an industrial organisation wanting to expand in the United Kingdom.

Our property stands on a 19 acre site near to London's International airport and is, therefore, ideal for freight distribution and passenger transport to Europe and all over the world.

For freight distribution throughout England, Scotland and Wales the property is adjacent to access points of Britain's comprehensive motorway system. Fast roads and the underground railway give direct access to the centre of London in under an hour.

The total accommodation area of the buildings is 356,000 sq. ft. There is a prestige office block with main road frontage and its own semi-circular drive and spacious reception area. The majority of the estate comprises open space factory together with substantial warehousing facilities. There is a large sports ground for staff recreation.

Central and District Properties Limited will be pleased to supply further details upon request.

Please contact Dennis Collett, Deputy Managing Director,
Central and District Properties Limited

New Satellite Set to Go

Intelsat Changes World Communications

By John Noble Wilford

CAPE KENNEDY, Fla., Dec. 9 (NYT).—A new communications satellite is awaiting launching here to provide one more link in a global system that is dramatically altering the way men and nations keep in touch.

Intelsat IV, the second in a series of high-capacity communications satellites, is set to be lifted into an orbit over the Atlantic Ocean. Another one is scheduled to be placed over the Pacific Ocean about six weeks after that launching.

The new satellite should more than double the world's capacity for transmitting telephone and television signals by satellite. The two, plus seven existing satellites, represent the present core of an expanding satellite communications system throughout the world.

Soon, satellite capacity is expected to exceed that of the world's transoceanic cables.

81-Nation Consortium

The new satellite, like the others in the global commercial communications system, is owned by the International Telecommunication Satellite Consortium, or Intelsat, comprising 81 member nations. The National Aeronautics and Space Administration launches the satellites under contract to the U.S.-owned Communications Satellite Corporation, or Comsat, which manages the technical aspects of the consortium.

Intelsat IV is the fourth generation of commercial communications satellites, which started with Early Bird, or Intelsat I, in 1965. The advances since then have been considerable.

Early Bird had a capacity for 240 circuits and was designed for an 18-month lifetime. This represented an investment of $25,000 per circuit year. The Intelsat IIs of 1967 cut the cost to $17,600 and the Intelsat IIIs of 1968 cut it further to $2,900 a circuit year.

The first Intelsat IV was launched last January. It has an average capacity of 5,000 circuits and a designed lifetime of seven years, which represent an investment of $1,000 a circuit year.

Because of the new efficiencies, Comsat reduced its rates for transatlantic circuits last July by 25 percent, from $3,800 to $2,850 a month. Other reductions are said to be possible.

Comsat, which uses 42 percent of the entire system, reports that 60 percent of its traffic was over the Atlantic, 30 percent over the Pacific and 10 percent over the Indian Ocean.

Last week, satellites were used for the first transmission of a Picturephone message, between Comsat's headquarters in Washington and a new satellite tracking station in Tanum, Sweden.

Because of the satellites, it is possible for Africans to call from one country to another in their continent without going through London; the same is true for Latin Americans whose calls no longer have to go through New York.

$210-Million Investment

Under the provisions of a new international agreement controlling Intelsat, which was concluded this year, Comsat's role was reduced from majority control to a 40 percent vote. Each member invests in the consortium proportionately with its use of the facility and shares in the profits proportionately.

Hoesch Delays Decision on Link With Hoogovens

DORTMUND, West Germany, Dec. 9 (AP-DJ).—The supervisory board of Hoesch met today without making any final decision on the planned merger of the steel company with Hoogovens of the Netherlands.

A spokesman said the meeting concerned itself exclusively with the merger draft.

He conceded that a final decision had been anticipated from today's board session. He said he was unable to say what is delaying Hoesch's final approval but noted that the complexity of problems involved probably makes further top-management deliberations necessary.

It is now reliably understood that the final decision will not be taken before early next year. So far as is known, Hoesch has not scheduled another board meeting this year.

Once approved, the merger will link two major European steel makers with combined crude steel capacity of nearly 12 million tons annually and turnover of over 9 billion deutsche marks.

PEOPLE IN BUSINESS

Michel C. Bergerac

Norman N. Hochgraf

Michel C. Bergerac, executive vice-president of ITT Europe, will succeed James V. Lester as president of ITT Europe. Mr. Lester returns to ITT headquarters in New York where he is assigned to the office of the president-operations.

* * *

Essochem Europe, regional headquarters for Esso Chemical's activities in Europe, Africa, and the Middle East, has named Norman N. Hochgraf a vice-president. Former executive assistant to the president of the U.S. parent company, Mr. Hochgraf will be based in Brussels.

* * *

André Reinhardt, former managing director of NCR-France, has succeeded Robert Hoenig as company president upon Mr. Hoenig's retirement.

* * *

Harry Hallebronth, managing director of Teves-Thompson GmbH, has been made managing director of Sté. Mécanique de Pringy (France). Both companies are wholly-owned subsidiaries of TRW of Clevelnnd.

* * *

Jean-Paul Wolff of Polymer Corp. France, has been promoted to general manager from secretary-general.

* * *

RCA Records has named Robert A. Hurford division vice-president, with responsibility for all overseas activities.

* * *

Admiral Eugenio Sandazzo has been named general manager of CSIT, Italian subsidiary of Computer Sciences International, where he was formerly manager of governmental systems.

* * *

Chase Manhattan Bank reports that Sieghardt Rometsch has been named second vice-president and manager of credit administration and marketing for its branches in Germany. He was formerly manager of commercial accounts in Stuttgart.

U.S. Upturn Quickening, Bank Believes

Says Economic Data Point to Improvement

NEW YORK, Dec. 9 (Reuters).—The progress of the U.S. economic recovery from last year's recession continues to be mixed, but recently there have been "some indications that the momentum of the recovery may be quickening," the Federal Reserve Bank of New York said today.

In its December monthly review, the New York Fed pointed to a number of economic indicators as the basis for this improved outlook.

It noted that October industrial production, excluding the impact of the coal strike, was "relatively strong," as gains in production in other industries were "broadly based."

The Fed also pointed to recent retail sales data, which "support the view that consumers have become somewhat less hesitant," since these gains were "widely based and not confined to automotive demand." Demand for autos rose markedly in part as a result of the proposed elimination of the automobile excise tax, the bank noted.

Significant Growth

The recent accelerated growth in non-automotive retail sales is "all the more significant" in view of the slowing in the rate of increase of consumer goods prices, the Fed emphasized.

"To some extent, the apparent shoring-up of consumers' confidence may be anchored in labor market conditions, which have begun to show some—admittedly scattered—improvements during recent months," the Fed noted.

It said special circumstances surrounding the 90-day freeze have made recent movements in the consumer price index "difficult to assess." It noted that the freeze apparently had "a much greater effect" on wholesale prices than on consumer prices.

Manufacturers' demand for inventories "appears to have strengthened," after allowance for the run-down of inventory stocks accumulated in anticipation of a mid-summer steel strike. This strengthening "appears to have extended" to wholesale and retail trade establishments as well, the Fed added.

Increased inventory accumulation would be a "major propellant for faster economic growth," since sluggishness in this category has been "one of the most important factors in the slower than usual pace of the recovery," the Fed said.

Swift Profit Rises 17.5 Percent in Year

NEW YORK, Dec. 9 (Reuters).—Swift & Co. profit rose 11.8 percent in the fourth quarter and 17.5 percent in the year ended Oct. 30, the company reported today.

Fourth-quarter profit was $11.4 million, or 90 cents a share, up from $10.2 million, or 80 cents a share, in the same period last year. Sales were $773.1 million, down 3 percent from $797.5 million a year ago.

Full-year earnings were $34.09 million, or $2.68 a share, up from $29.02 million, or $2.24 a share, last year. Sales were $3.01 billion, down 2.3 percent from $3.08 billion last year.

Eurodollar Borrowings

WASHINGTON, Dec. 9 (Reuters).—Eurodollar borrowings by U.S. banks from their overseas branches declined $752 million to $2.397 billion outstanding in the week ended Dec. 1, the Federal Reserve reported yesterday. The drop, following a $206 million decline in the week previous, was the largest since the $808 million drop in the week ended Aug. 11.

Profit-Taking Drops N.Y. Prices

NEW YORK, Dec. 9 (IHT).—New York Stock Exchange prices continued under moderate profit-taking pressure for the second consecutive session today, with glamours firming toward the close.

The Dow Jones industrial average fell 2.70 to 852.15. It was down about 5 at its low for the session.

Volume fell to 14.71 million shares from 16.65 million yesterday. Brokers said many investors took to the sidelines to wait out the period of profit-taking.

Analysts consider the downward readjustment normal and say that so far it has been mild, compared to the extent of gains in the post-Thanksgiving holiday rally.

Analysis are split on the market's longer term course. Some

Analysts Say Fall Normal and Mild

say the market indicates strongly that it has further to go when profit-taking is completed. They say another rally could follow an international monetary accord at the Group of Ten meeting Dec. 17 and 18.

However, other analysts say the recent rebound shows similarities to interim gains in bear markets of the past. They add that investors remain uncertain about the effect of Phase 2.

Blue Chips Mixed

In the blue chip sector, General Motors lost 1 to 78 1/2, Indiana Standard gained 1 1/4 to 53 3/4, Westinghouse was up 1 at 87, Du Pont lost 2 1/4 to 138 1/4, Johns Manville was off 7/8 at 38 1/2.

Glamours also were mixed. Bausch & Lomb slipped 2 3/8 to 162 5/8, Natomas gained 2 to 65 1/2, IBM was up 4 at 317 1/2, Honeywell off 1 3/8 at 125 1/4, Levitnz Furniture up 2 3/4 at 116 3/8.

The NYSE list of 16 most active stocks showed only fractional changes. Wheelabrator-Frye topped the list at 6 1/2, up 3/4, on 329,100 shares.

Pan American Air, Braniff and Eastern also where active and showed little change.

Plessey gained 1/4 to 2 1/2 on relatively heavy trading of 292,300 shares. A rumor that Thorn Electrical Industries was contemplating a takeover bid for Plessey was denied by a spokesman for Thorn in London.

Swank closed with a gain of 3/4 at 15 3/4 after trading as high as 16.

Stocks closed mixed on the American Exchange. The index closed at 24.81, up .04. Declining issues led advances 447 to 412 with 307 issues unchanged. Volume totaled 3,705,440 shares.

Teleprompter, which was among cable television issues that gained yesterday following a private survey report favorable to the industry, jumped 7 5/8 to 108 1/4.

On the Bond market corporates closed virtually unchanged on the day and governments were weaker in mixed trading.

Dealers said there appeared to be little retail interest and new issues have received a mixed reaction.

Technical Problems Plague Litton's Automated Shipyard

PASCAGOULA, Miss., Dec. 9 (AP-DJ).—Still at Litton Industries' "shipyard of the future" more than a year after it should have been delivered, the 30,000-ton container vessel Austral Envoy has been dogged by trouble from the start. Many of the 240 steel sections of which it is composed did not fit quite right.

After the ship was launched in June, its 520-ton deckhouse sagged nine-sixteenths of an inch; bulkheads below buckled. One of its cargo holds was too shallow. Its anchor did not work right. The ship is three inches shorter than allowed in contractual specifications.

For months now Litton has been busily fixing those things that can be fixed. But the sorry saga of the Austral Envoy still has a lot of top Washington officials worried. For it is the first ship built at Litton's highly touted new automated "shipyard of the future" on the Gulf Coast, a yard that has a backlog of nearly $3 billion of Navy work and a plethora of problems ranging from management turnover and manpower shortages to late deliveries and shoddy workmanship.

Projects Jeopardized

Unless solved quickly, these problems threaten serious financial and technical trouble for two of the biggest shipbuilding projects in Navy history. They are the building of five amphibious assault ships (known as LHAs) the size of older aircraft carriers and designed to carry combat-ready Marines, and 30 fast, 7,000-ton destroyers (known as DD963s) that will replace World War II warships.

Litton and Navy officials maintain that the "startup problems" that plagued the Austral Envoy are rapidly being overcome and that the Navy programs are in good shape.

Rear Adm. Charles Payne, the Navy's shipbuilding supervisor here, says the slippage on the LHA, already a year late, "has mostly occurred" and that the DD963, slated to go into production in January 1973, is "on schedule."

Others, in Congress, the Maritime Administration, the industry and the Navy itself, are not so sure.

Significantly, the problems at the yard, known as Litton Ship Systems, have not brought into question the basic soundness of its advanced assembly-line concept. The 18-month-old facility is radically different from conventional shipyards, where vessels are built in one piece from the bottom up.

As in the most modern Swedish and Japanese yards, ships here are constructed in relatively small assemblies and sub-assemblies. Already fitted with piping, electrical wiring, machinery, boilers and other equipment, these sections are then fastened together in giant "modules" that weigh thousands of tons, and are "mated" to form the complete ship.

Litton believes the facility, designed for large-scale production, will be able to produce higher-quality ships at lower cost than conventional yards. Thus far, however, Litton has found the new techniques easier to describe in glossy, multicolor brochures than to execute.

Fred O'Green, executive vice-president, concedes that Litton will lose a substantial amount of money on the $20 million Austral Envoy, built for Farrell Lines; he will not say how much.

Sex Potency Rumor Helps Vitamin Sales

NEW YORK, Dec. 8 (AP-DJ.).—Sales of vitamin E, according to some U.S. drug industry sources, have increased 137 percent this year, due largely to rumors that it protects lungs against smog, fights cholesterol deposits and increases sexual potency.

Druggists are pleased with the sales jump, but is there any truth to the rumors?

One drug industry source says: "The only thing I know for a fact about vitamin E is that it prevents pregnant rats from aborting."

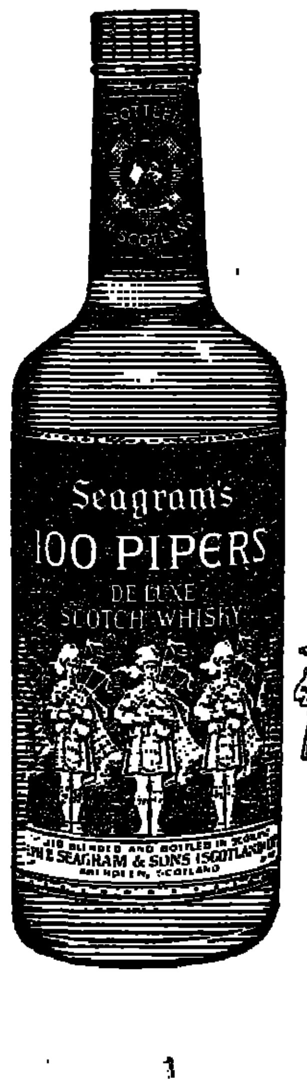
(Continued on next page.)



The 100 Pipers Legend.

Our legend claims if you sip
a perfect Scotch you'll hear 100 pipers play.
That's a lot of Pipers. But then
100 Pipers is a lot of Scotch.

100 Pipers Scotch. From Seagram, Scotland.

100 Pipers Scotch Whisky, Bottled in Scotland. Created with the skill that has made Seagram the world's largest distiller.

z—Sales in full.

Unless otherwise noted, rates of dividends in the foregoing table are annual disbursements based on the last quarterly or semi-annual declaration. Special or extra going table are annual disbursements based on the last quarterly or semi-annual declaration. Special or extra dividends or payments not designated as regular are identified in the following footnotes.

a—Also extra or extras. b—Annual rate plus stock dividend. c—Liquidating dividend. d—Declared or paid in 1971 plus stock dividend. e—Paid last year. f—Paid in stock during 1971, estimated cash value on ex-dividend or ex-distribution date. g—Declared or paid so far this year. h—Declared or paid after stock dividend or split up. k—Declared or paid this year, an accumulative issue with dividends in arrears. n—New issue. p—Paid this year, dividend omitted, deferred or no action taken at last dividend meeting. r—Declared or paid in 1970 plus stock idvidend. t—Paid in stock during 1970, estimated cash value on ex-dividend or ex-distribution date.

cld—Called. x—Ex dividend. y—Ex dividend and sales in full. x-dis—Ex distribution. xr—Ex rights. xw—Without warrants. ww—With warrants. wd—When distributed. wi—When issued. nd—Next day delivery.

vj—In bankruptcy or receivership or being reorganized under the Bankruptcy Act, or securities assumed by such companies. fn—Foreign issue subject to interest equalization tax.

Year's high and low range does not include changes in latest day's trading.

Where a split or stock dividend amounting to 25 per cent or more has been paid the year's high-low range and dividend are shown for the new stock only.

CITY BANK

Incorporated under the banking laws of Denmark

6 Skoubogade, DK-1158 Copenhagen

Adviser His Highness Prince Gorm of Denmark

Full safety and secrecy

No Danish taxes

Write for details

Name: ____

Address: ____

Town: ____

Country: ____

You probably have money in some kind of a savings account in the bank right now. And you'd probably do better if you had that account at our bank instead of your bank.

The reasons are simple.

You earn 7.18%. Or more.

We pay 7.18%, compounded quarterly, on demand deposits. And your funds are available for immediate withdrawal.

We pay even higher rates on fixed term deposits.

Your money is very, very safe.

We currently service over $20,000,000 worth of deposits from over 115 different countries. We're an experienced bank, guided by conservative and sound investment principles. And we're fully insured by Lloyd's of London against disappearance, destruction and dishonesty.

What's more, we're chartered and licensed under the Bahamas Government. A politically stable place to live. And an economically stable place to do business.

Your transactions are completely confidential.

The British American Bank conforms to the 1965 Bahamas Banking Act. It gives you absolute privacy as a depositor.

We are required to make no reports of accounts to the Government of the Bahamas. Or to any foreign government. Or to any private agency.

With us, if you want it that way, you're just a number.

Your earnings are tax-free.

The Bahamas impose no income taxes, capital gains taxes, personal property taxes, probate or death duties.

This means you receive every single penny of your interest. Intact. Whether your account is $100 or $1,000,000.

You can get things going before you turn this page.

Banking by mail with us is fast and secure from anywhere in the world. And you can open a demand deposit savings account right now. Just fill out the coupon, enclose your initial deposit, and send it in.

We'll open your account, and send your deposit receipt and your bank book by return mail.

If you're not ready to open an account at this point, you can still get more information on the British American Bank. Just check the appropriate box and send in the coupon.

But don't put it off.

Chances are you're losing money every day you wait.

The Coupon that can make you richer.

BRIDGE — *By Alan Truscott*

The Italian pair of Giuseppe Messina and Benito Bianchi, using their own system, the Quadri Livorno, based on a strong one-diamond opening bid, played a key role in Italy's victory in the European bridge championships. Some of its sequences are borrowed from the Roman system, as in the diagramed example.

Bianchi's two-club opening bid in the North position showed a three-suited hand with 12-16 points in high cards. The two no-trump response guaranteed a game, and asked North to name his short suit.

Another round of conventional bidding, aimed at finding out more about the North hand, and South settled in four hearts. He knew that three no-trump was hopeless and decided to try a four-three fit at the four-level rather than a four-four fit at the five level.

Knowing that ruffs would be forthcoming, West led a trump, thus solving Messina's problem about the trump queen. He took the nine with the jack, and led a spade toward dummy. West ducked and the queen won.

South re-entered his hand with a trump lead to the ace and led a second spade. When West ducked a second time Messina guessed well by putting up dummy's king. A third spade lead established the last spade in dummy, and from that point on the way was smooth.

After taking the spade, West played a third trump, and South claimed 11 tricks. A diamond was his only other loser. West would have done better to play two diamonds, forcing dummy to ruff. Then the declarer would not have been safe in drawing trumps, and he would have made sure of ten tricks by leading the last spade from dummy and discarding his own last diamond. The defenders would take two trump tricks, and South would have his contract.

In the replay, Benito Garozzo, always agressive, opened the West hand with one diamond. North bid two diamonds, apparently a take-out bid, and the partnership eventually rested safely in four clubs. They made exactly ten tricks, and could have made 11 by winning guesses in both major suits. Italy gained 11 international match points on the deal.

BOOKS

THE FORESTS AND WETLANDS OF NEW YORK CITY

By Elizabeth Barlow. Foreword by René Dubos. Illustra
Little Brown. 160 pp. $8.95.

Reviewed by Christopher Lehmann-Haupt

THE title of Elizabeth Barlow's "The Forests and Wetlands of New York City" may strike one as amusing—a gentle sick joke. And at first it makes one sad to be reminded by the author, who is a former Parks Council consultant, that wolves once roamed Manhattan, that Indians once hunted in the Bronx, and that Adrian Van der Donck, an early resident, once wrote that "The air in the New Netherlands is so dry, sweet and healthy that we need not wish that it were otherwise . . . There are no heavy damps or stinking mists in the country, and if any did arise, a northerly breeze would blow them away, and purify the air. The summer heat is not oppressive in the warmest weather, for it is mitigated by the sea breezes, the northerly winds, and by showers."

Yet, oddly enough, Mrs. Barlow's study is not at all what the foregoing may suggest it is—a jeremiad on human folly, or a polemic on the ecocatastrophe. Quite the contrary, her book is therapeutic, for if one of the extreme hazards of existing in this city is the anxious and disorienting sense of being cut off from the natural surface of the globe, then Mrs. Barlow has provided an antidote.

For she has reached back to recall for us what the city once was like—how Manhattan Island used to be divided by a marsh system, part of which was Collect Pond (famous for its fishing), where the Criminal Court building now stands, and part of which became the waterway that gave Canal Street its name. How the Indian village of Nipinisicken once sat on Spuyten Duyvel Hill ("whose rock face is today painted with a huge blue C for Columbia to encourage the home team at Baker Field"). And how the finest sheared chrysoberyl crystal ever found in North America was discovered at Riverside Drive and 93d Street.

She has linked the present city to its past, by showing how its geological history shaped its development. Did you know, for instance, that major thoroughfares like Broadway run along bands of soft, corrodible Inwood marble that lie between the "heights" of tougher stone? (It was the location of similar marble that determined where the Hudson and Harlem Rivers were to cut their beds.) Were you aware that between 30th and Chambers Streets the firm bedrock of Manhattan schist that elsewhere supports the city's skyscrapers dips below the reach of building foundations, thus accounting for the "valley" of low buildings in Greenwich Village and the loft district?

Finally, in the major chapters of the book, Mrs. Barlow has explored part of what is left of comparatively pure nature in the city: Manhattan's Inwood Park, the wooded area overlooking

Spuyten Duyvil Creek,
Indians once lived in caves
are still extant, and where
sian mercenaries were qua
during the Revolutionary
(Among the artifacts k

rwegian Wins Giant Slalom

Haker, 19, Trailed by France's Jean-Noel Augert and Duvillard

nard Kirsch

RE, France, Dec. 9 as all so new that rik Haker even en alled the "half-race

ever even done that Norwegian said at ning, several min posted the fastest first heat of the Cup giant slalom in a de la Premiere

nutes later, Jean a very good skier, ins the whole thing. you say he's a good no place for luck ly if he wins can he has arrived." rrived. The 19-year overcome the usual nge, a broken cable nerves today to be Norwegian to win race. The 25 cup gained today were s he won all last

ehind Haker were an-Noël Augert and rd, and not finish ere last year's co cup giant slalom— atrick Russel and o Thoeni.

Thoeni had a pair of poor runs, and finally fell on the second as did Russel, who won last year's giant slalom here. After the first heat today, it appeared that the buck-toothed Frenchman again would make a strong start to the season as he was clocked in 1 minute 33.73 seconds. Only somebody called Haker—whoever he was—was ahead of him, with a 1:33.47. The Norwegian would surely choke up in the afternoon. He has had little experience in handling pressure. And the giant slalom is a long, exhausting jaunt. There were 71 gates for the first heat.

"Then, I just went back to the hotel, had a bite to eat, and just tried to relax," said Haker, after he was being called the whole race winner.

Returning for the afternoon run, he found riding up the slope in a *telecabine* more difficult than coming down on skis. A loose cable halted the cable cars from operating for 45 minutes. "I just tried to relax," Haker said again, as he waited downstairs, while Willy Schaeffler, the race referee, said, "A half hour more and we'll have to fit this race in sometime tomorrow."

The wait soon ended. Haker stayed cool and posted the second best time in the second heat —1:26.08 through 61 gates—for a total clocking of 2:59.55. Auger had the second run's fastest time, 1:25.98, for a 2:59.90 total.

Trained With French

The Frenchman, an excellent slalom man and a good skier in the giant, said he wasn't too surprised that he was beaten by Haker. The Norwegian spent a month training with the French squad last summer.

In 1970, Haker finished 10th in the giant slalom at the World Championships in Val Gardena, Italy. He was then hampered by a knee operation and came back to finish fourth in the downhill at the pre-Olympics last winter in Sapporo, Japan.

He is now second in the World Cup standings, 4 points behind Bernhard Russi of Switzerland. Russi brought his total to 29 points with a seventh-place finish today. He won the downhill last week.

Poulsen Is 12th

The U.S. men have yet to score a cup point, as they were shut out for the second straight race today, although Eric Poulsen of Olympic Valley, Calif., missed a top-10 finish by ten one-hundredths of a second. He came in 12th after being bothered in the first heat by his goggles.

"They were falling all over the place and I had to pick my hand up during the race to put them back in place," he said. "If it wasn't for that, I thought I could have done better."

The other U.S. finishers today were: Hank Kashiwa of Old Forge, N.Y., 32d; Bob Cochran, Richmond, Vt., 48th; Dave Currier, Madison, N.H., 54th, and Paul Crews, Anchorage, Alaska, 55th.

Tyler Palmer, the top U.S. point man last year, will make his first 1971 cup appearance next week at Sestriere, Italy, in a slalom. But before the skiers leave here, the men and women will each have a downhill.

FALLING HEAD OVER HEELS—Football, like love, can be a dangerous game when you throw yourself at someone, as Oilers' Ron Pritchard found out after Steeler quarterback Terry Bradshaw ducked him in first quarter last Sunday. Bradshaw was thrown for 10-yard loss and Steelers were beaten, 29-3.

NHL Bruins Outscuffle Kings To Run Unbeaten String to 11

NEW YORK, Dec. 9 (UPI).—The Boston Bruins broke open a 2-2 contest with three goals with a 2 minute 56 second span in the third period to defeat the Los Angeles Kings, 5-3, last night in a National Hockey League game at Inglewood, Calif.

The Bruins seemed to come to life after center Derek Sanderson was ejected in the second period. The Bruins ran their unbeaten streak to 11 games—10 victories and a tie—and remained in a second-place tie with Montreal in the East Division as the Canadiens also won. Both clubs picked up a point on the division-leading New York Rangers, and moved 1 point out of first place. The Rangers and Chicago played a 2-2 deadlock.

With the score tied, 2-2, Wayne Cashman, Dallas Smith and Fred Stanfield beat Kings' goalie Rogatien Vachon to hand Los Angeles its sixth straight loss.

Sanderson was ejected from the game after two consecutive misconduct penalties. He then charged referee Bryan Lewis and had to be restrained. When exiting, he began swinging his stick at television cameramen. He is liable for a three-game suspension for his actions.

Rangers 2, Black Hawks 2

Vic Hadfield's 20th goal of the season, with 12 minutes left to play, gave New York a 2-2 tie with Chicago, keeping the Black Hawks undefeated in 15 games at home this season. Hadfield's goal came on a deflected shot by Jean Ratelle between the legs of goalie Tony Esposito.

Canadiens 4, Red Wings 2

Defenseman Jean-Claude Tremblay scored his first two goals of the season and added his 23d assist as he powered Montreal to a 4-2 home victory over Detroit. Tremblay broke up a scoreless contest with a power-play goal at 7:58 of the second period after taking a pass from Henry Richard. He scored what proved to be the winner with less than 2 minutes to play in the same period when he skated in on Detroit goalie Joe Daley and beat him with a low liner.

Golden Seals 1, Penguins 1

Bob Leiter's 15-foot slap shot with 17:19 gone in the second period gave Pittsburgh a 1-1 tie with California at Pittsburgh.

Maple Leafs 3, North Stars 1

Toronto got goals from linemates Darryl Sittler, Norm Ullman and Jim Harrison to beat Minnesota, 3-1, at Toronto. The loss cut Minnesota's West Division lead over Chicago to 2 points.

Miss Ziegenfuss Ousts Miss Durr

AUCKLAND, New Zealand, Dec. 9 (Reuters).—Valérie Ziegenfuss of the United States upset third-seeded Françoise Durr of France, 6-4, 6-2, in a women's quarterfinal match in the Benson and Hedges Open tennis tournament today.

Another American, Rosemary Casals, also gained, 6-1, 4-6, 6-1, against Australia's Leslie Hunt.

Defending men's champion Bob Carmichael, the Paris-based Australian, was beaten, 4-6, 7-5, 6-1, 7-5, in the quarterfinals by Australian Allan Stone. Top-seeded John Alexander won, 6-7, 6-3, 6-3, 6-2, in an all-Australian match against Bill Bowrey.

Colonels' Gilmore Packs More Than Bread and Butter

NEW YORK, Dec. 9 (UPI).—Rookie Artis Gilmore says that defense is his "bread and butter" but the Kentucky Colonels' 7-foot-2 rookie center from Jacksonville also packs offensive wallop.

Gilmore has been averaging about 22 points a game and is leading the American Basketball Association in rebounding and blocked shots. He and Dan Issel combined for 75 points in a 132-111 victory over the Carolina Cougars at Charlotte, N.C., last night.

Issel scored 41 points and Gilmore added 34 for the Colonels, who increased their first-place lead over the idle Virginia Squires to three games in the East Division. Fourteen of Gilmore's points came in the fourth period, during which he led a 12-2 breakaway from a 109-109 tie.

Stars 116, Chaparrals 97

Utah, led by Zelmo Beaty's 20 points in the second half, routed Dallas, 116-97, at Salt Lake City. The Stars moved 3 1/2 games in front of idle Indiana in the West. Beaty and Steve Jones led Utah with 25 points each.

Pros 109, Rockets 91

Seven Memphis players scored in double figures in a 109-91 home victory over Denver. Rookie forward Johnny Neumann, who played only 24 minutes, paced the Pros with 18 points.

ABA Results

Wednesday's Results

Memphis 109 (Neumann 18, Ladner 17), Denver 91 (Simpson 24, Becker 18).

Kentucky 132 (Issel 41, Gilmore 34), Carolina 111 (Lehman 26, McDaniels 30, Miller 20).

Utah 116 (Beaty 25, Jones 19), Dallas 97 (S. Jones 25, Hill 18).

Saints Fire Schwenk

NEW ORLEANS, Dec. 9 (UPI).—General manager Vic Schwenk, who had been with the New Orleans Saints since the National Football League team was created in 1966, was fired today.

The Scoreboard

TENNIS — At Brisbane, Australia, Evonne Goolagong of Australia beat Mona Schallau of the United States in a women's singles quarterfinal of the Queensland Grass Courts championships, 4-6, 6-1, 11-9. In men's singles quarterfinals, Patrice Domingues of France beat Geoff Masters of Australia, 6-3, 6-3, 6-3; Australian Colin Dibley ousted countryman R. Frawley, 6-3, 6-4, 6-4; Australian Mal Anderson beat countryman K. Warwick, 6-3, 7-6, 6-2, and Australia's John Cooper beat Australian Ross Case.

SOCCER—At Paris, France beat Austria, 5-1, in a pre-Olympic qualification match as forward Tonnel scored three goals. The Soviet Union leads the Group Two standings with no losses in three games.

SKI HIGH—Erik Haker of Norway en route to stunning giant slalom victory.

Maryland's 2-Game 'Dynasty' Ends

NEW YORK, Dec. 9 (UPI).—Maryland's new basketball "dynasty" lasted two games.

The Terrapins, with coach Lefty Driesell recruiting some of the top talent in the nation for the past three seasons, had hoped to become the "UCLA of the East." Maryland cruised by Brown and George Washington in its first two games but the bubble burst last night as Virginia stunned the fifth-ranked Terps, 78-57.

Barry Parkhill scored 21 points as Virginia's controlled offense dominated the game. The Cavaliers shot 67 percent in the first half and riddled Maryland's second-half press to go ahead by 17 points. Virginia's scrambling defense held Tom McMillen, the nation's most sought-after schoolboy two years ago, to just one field goal and 4 points in all.

Jim Hobgood controlled the boards for Virginia and added 15 points and Frank DeWitt had 13. Jim O'Brien was Maryland's high scorer with 13.

In the only other action involving a ranked team, Kansas, behind Bud Stallworth's 34 points, rolled over Notre Dame, 88-72. Stallworth, having one of the best nights of his career, led the Jayhawks to a 52-35 lead at the half. Kansas outrebounded the Irish, 50-34, and took advantage of 25 Notre Dame turnovers.

Elsewhere, Wichita State remained unbeaten by stopping Colorado, 70-55, as Ron Harris scored 24 points; Doug Farrell hit a pair of free throws with 26 seconds left to lift Niagara to a 71-70 victory over LaSalle; sophomore center Marvin Barnes had a school-record 34 rebounds to help Providence rout Buffalo State, 75-58.

Sports Shorts

Prince Philip of England, president of the International Equestrian Federation, warned that horses with commercial names could be banned from next year's Olympic Games in Munich. Speaking at the federation's annual meeting in London, he also added that there should be a distinction between riders who "compete for a living and those who compete for fun." If this separation is not made by the federation, he said, he would not be surprised if certain competitors are banned by the International Olympic Committee.

* * *

The National Football Foundation inducted ten members into its Hall of Fame, including former coaches Eddie Anderson of Iowa and Holy Cross and Jess Neely of Rice, Clemson, Vanderbilt and Southwestern (Tenn.). Anderson played with the late Knute Rockne's first Notre Dame team in 1918. The eight in the players category honored at the New York dinner were Bill Willis, Ohio State; Nello Falaschi, Santa Clara; Glenn Killinger, Penn State; Clarke Hinkle, Bucknell; Ray (Rags) Matthews, Texas Christian; Bob Steuber, Missouri; Clyde (Smackover) Scott, Navy and Arkansas, and Dan McMillan, Southern California and California.

* * *

The British Formula One BRM Team will run six cars in the 1972 world championship grand-prix competition, all sponsored by the Philip Morris Tobacco Company. Frenchman Jean-Pierre Beltoise will be the No. 1 driver for the team which will include Briton Peter Gethin, New Zealander Howden Ganely, Austria's Helmut Marko and Gys Van Lennep of the Netherlands, this year's Le Mans winners, and Alex Soler-Roig of Spain.

Behind the Lakers' Success Stands New Coach Sharman

LOS ANGELES, Dec. 9 (AP).—Cautious and precise are the two words which best describe the coaching tactics of Bill Sharman. Explosive and devastating are the words which describe his team, the virtually unbeatable Los Angeles Lakers. The perennial bridesmaids of the National Basketball Association may make it to the altar this year with the former Boston Celtic backcourt star directing from the sidelines. Sharman refuses to credit himself. But his players readily admit the Lakers are a different team this year.

"I know it sounds corny," says the 45-year-old coach, "but this team is winning because of enthusiasm, pride and dedication to hard work.

"And also, this is one of the most intelligent groups of players I've ever been associated with."

The Lakers have a 24-3 won-lost record and an 18-game winning streak—two less than the record.

UPI

Bill Sharman
cautious

Too Early

"We haven't won anything yet," Sharman says soberly. "It's much too early to get excited. One or two key injuries and this whole thing could turn around."

Sharman's sidekick in the Boston backcourt, K.C. Jones, is the Lakers' assistant coach, a new post for the Pacific Division leaders. He charts teams, keeps complete records of what the rest of the NBA is doing and scouts upcoming teams. With that knowledge, Sharman devises a "game plan" for each foe and updates it each game.

"Just because a team does one thing one time doesn't mean they'll look the same the next time," he said. "We have three different types of defenses and we try to adapt to changes."

West Undefeated

Jerry West has played in 22 of the Lakers' games this year and Los Angeles has won them all. Wilt Chamberlain is the sixth-leading Laker in scoring but averages 21 rebounds a game, best in the league, and has been awe-inspiring on defensive. Jim McMillian has scored and rebounded well (18 points, 8 rebounds a game) while playing better defense than a year ago as a rookie from Columbia.

Gail Goodrich leads the team in scoring. Happy Hairston is the second-leading rebounder. Pat Riley is a run-run reserve and Flynn Robinson, also a reserve, has connected on 42 percent of his shots from the field and 95 percent from the free throw line. Leroy Ellis is a top quality substitute for Chamberlain.

"Certainly I'm pleased but I've got my fingers crossed," said Sharman. "We still have 50-some games to go. In a way, I'm sort of worried that this hot streak came too early. I'd have liked it later so we could have the momentum going into the playoffs."

Laker players have said they don't mind Sharman's rigorous training schedule. He calls warm-up workouts occasionally on the day of a game and he calls "chalk" sessions more than most NBA coaches.

Tough Training

"I think reports about our tougher training are a bit exaggerated, but I think it was true during the preseason," he said. "On at least two or three occasions we have won games during the streak on our conditioning and that's because of how hard we worked during the preseason."

The preseason schedule often called for a three-hour morning workout and a two-hour evening session the day before a game. And a workout on the day of a game, too.

Chamberlain, the highest scorer in the history of the league, says he's never been happier. Sharman says this is because "before the season started, I sat down with each player separately and told them that if there were problems concerning the way I coached, I wanted to know about it before the news media got it."

"We haven't had a single problem this year and I guess part of it is because we're winning. But Wilt is doing more things now. The older you get, the smarter you get," says Sharman.

"And when I told him my ideas about what I wanted him to do —start the fast break, rebound both boards and play defense—I knew he realized it's best for the team. We have been old friends for a long time and that has something to do with it, too."

The Lakers have been out-rebounded only once this year.

"But I'm holding my breath," says cautious Sharman. "Anything can happen in a long season."

Lakers Win 18th Straight

3 More Needed For NBA Mark

NEW YORK, Dec. 9 (UPI).—"Jerry West was just great in the clutch—as usual," said coach Bill Sharman last night after the Los Angeles Lakers beat the Houston Rockets, 125-120, at Houston and moved to within two victories of the National Basketball Association's all-time mark of 20 in a row.

The Lakers' 18th straight victory—the Milwaukee Bucks set the record of 20 last season—increased Los Angeles's season mark to 24-3 and gave it a seven-game first-place lead over idle Seattle in the Pacific Division.

"This was by far the toughest game of our string," said Sharman. "The Rockets are 100 percent improved since our last meeting and seem to be adapting to Tex Winter's triple post offense. And Jerry West was just great in the clutch—as usual."

"They're getting harder every game," said West, who scored 6 of his 33 points in the last 2 1/2 minutes to clinch the verdict.

Gail Goodrich led the Lakers with 42 points while Wilt Chamberlain took only one shot from the field—a shot he made with 5:26 to go in the third period. Elvin Hayes led the Rockets with 31 points.

Celtics 126, Cavaliers 107

John Havlicek led Boston to a 126-107 rout of Cleveland at Boston. Havlicek scored 28 points, 20 of them in the first half. He was rested in the second half as Boston led, 63-46, at intermission. The Celtics increased their Atlantic Division lead to 2 1/2 games over idle New York.

76ers 115, Royals 109

Kevin Loughery scored 11 of his 20 points in the last five minutes as Philadelphia handed Cincinnati a 115-109 defeat at Cincinnati, the Royals' fifth straight loss.

Bullets 115, Trail Blazers 97

Archie Clark scored 30 points and reserve center Dorie Murrey sparked a Baltimore rally midway through the third quarter to give the Bullets a 115-97 home victory over Portland.

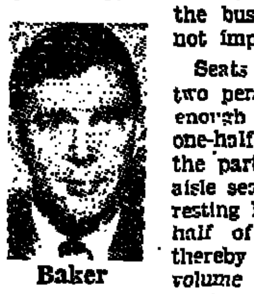
Observer

Bus Love-Hate

By Russell Baker

WASHINGTON.—For the first week or two riding the bus between home and office seemed a pleasant change. The car had become hateful. For one thing, it was beginning to gobble bigger and bigger sums of money. It was secretly supporting a parking-lot operator in Byzantine luxury, and what with the tendency of traffic paralysis to last for longer periods and the tendency of gasoline barons to raise prices more and more often, the car's eight big cylinders with their habit of gargling on high-test gasoline were going through the family fortune like a plague of college-aged children.



Baker

Those first few days on the bus were so cheap! Forty cents downtown. Forty cents back. A bagatelle and a pittance compared to the sawbucks on which the car gorged.

The bus also offered surprising engagement with humanity. There at the bus stop were people. Genuine people. They could have been touched and their humanity thus affirmed, except for our cultural inhibition against human contact without a license. Still, even without tactile confirmation, they were indisputably people. You could get close enough in the morning to see the rheum in their eyes and in the evening to see the smudges under their chins where fingers had paused absent-mindedly in the day's work to test the firmness of the flesh, to feel the march of fat, the creep of age there under the jawbone.

* * *

But the pleasures of money saved, of rediscovering that people everywhere—not just the people at the office and at home—that people everywhere were really people, just as they used to be in the mediocre old days—these pleasures were only temporary, the delights of fresh adventure. After they subsided, the reality of urban mass transportation—bus travel, if you dislike Latin—asserted itself.

Except in rush-hour periods, service was thin. Standing at the bus stop inhaling the fragrance of humanity and noting rheumy eyes and smudged chins can be exhilarating when the bus is going to be along any minute now. Doing it for 20 minutes in a drenching downpour before the bus lumbers into view does not improve the spirits.

Seats ostensibly designed for two persons were actually broad enough to contain only one and one-half adults. This meant that the party unfortunate to get an aisle seat had to choose between resting his entire weight on only half of his seating apparatus, thereby inviting who knows what volume of orthopedic bills, or mashing against the person in the window seat with aggressive intimacy.

Space between seats was so limited that any American slightly longer than average—and what American is not in the golden age of beef-eating?—was subjected to considerable discomfort. Bus seats, like men's ready-to-wear, seem to be cut only for "regular" sized persons, or what was a "regular" size in 1900.

With great diligence, one could read on the buses. This was a decided gain over the car, where it was impossible to do anything but listen to the radio describe the weather outside the windshield, but it may have laid up future business for the eye doctor. Most of the buses shuddered and vibrated constantly with elephantine death rattles which made it painful to focus on print very long. Many had dim or flickering lights that made interiors after dark suggestive of foggy nights in the old Limehouse of Fu Manchu.

All buses required an exact fare of 40 cents, a device which seems to have broken a Washington habit of murdering bus drivers for a handful of silver. Fine, but trying to assemble 40 cents in exact change on a street corner nine blocks from the nearest cash register can occasionally inspire another motive for murder.

Now the first romance of the buses has faded. The people are dull and inhuman. Forty cents is a lot for such thin, ill-lit, vibrating, uncomfortable service. On rainy late nights the buses are hateful. Can't anybody contrive a sensible way to get around in this country?

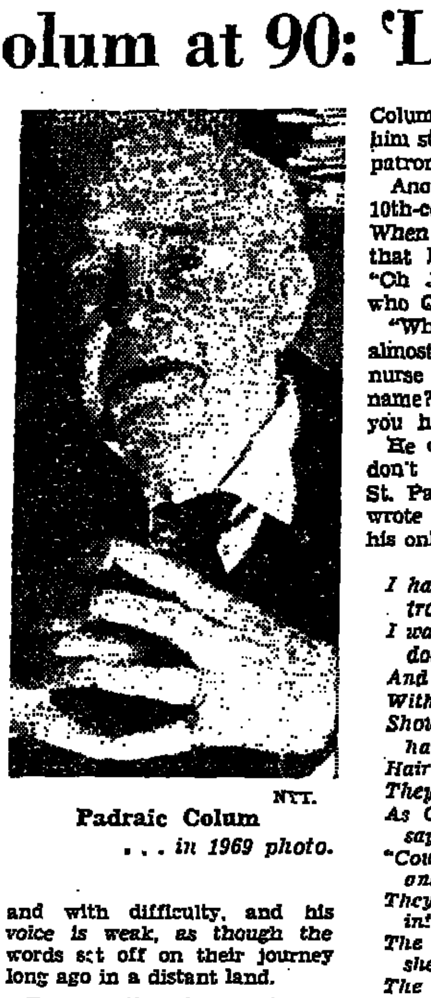
Padraic Colum at 90: 'Let's Call It a Draw'

By Israel Shenker

ENFIELD, Conn. (NYT)—On his 90th birthday yesterday, Padraic Colum's thoughts must have turned back, as they do each day in his life, to his native Ireland and to friends such as James Joyce and William Butler Yeats and to pleasures such as walking down a Dublin street while reciting lines from Byron.

In this adopted country, to which he came in 1914, he went on writing the poetry that dealt with the myths and troubles and delights of the homeland, and of his literary friendships. When Joyce wrote "Ulysses," Padraic Colum appeared in it as a pleasant poet. Mr. Colum returned the compliment by joining forces with his wife, Mary (who died in 1957) and writing a whole book about Joyce.

"The best thing in life is getting married," said Mr. Colum, sitting up in a bedside chair. "I regret very much the death of my wife, but I couldn't help this. She called me into her room one day and said, 'I think I'm dying.' I said—what did I say?—what one usually says, 'You're talking nonsense.' She said, 'I am dying.'"



NYT.

Padraic Colum . . . in 1969 photo.

Last Rites

Mr. Colum had a stroke, in June, 1970, while attending the Writer-Reader Conference at Suffield, near here. A Roman Catholic priest gave him last rites, but the poet stubbornly survived. The stroke left him paralyzed on the right side from his neck down; he could no longer write or focus on the printed page, and when he was transferred to the Parkway Convalescent Home here he refused to talk to anyone.

Edmund L. Krochalis and his wife, Jeanne Brown Krochalis, long-time friends of Mr. Colum, came to read to him each day, beginning with poems he knew by heart.

Mr. Colum dictates his memoirs to Mrs. Krochalis whenever he has the energy to speak aloud, and often it is for only five minutes. He speaks slowly and with difficulty, and his voice is weak, as though the words set off on their journey long ago in a distant land.

There is time for her to get everything down in longhand, and when she reads the sentences aloud he has few changes to suggest. "The style is precise but informal, conversational," she said, "as memoirs should be."

The other day he recalled a meeting with the poet George Moore about 1905. They were standing on the steps of Moore's house, together with the poet A. E. (George W. Russell), and Moore was reciting a limerick about neighbors with whom he was feuding. Unhesitatingly, Mr. Colum drew the lines from a memory that reached back some 65 years and whispered: "While my neighbors, the dirty Miss Drews..."

He and Mrs. Krochalis began their collaboration by preparing explanatory notes for an American edition of his poetry. One poem, "The Pilgrim," is about Thomas Hughes Kelly, and Mr. Colum dictated a note to set him straight: "New York man—patron of arts, idler."

Another dealt with Ireland's 10th-century Queen Gormlai. When Mrs. Krochalis suggested that he identify her, he said, "Oh Jeanne, everybody knows who Queen Gormlai is!"

"Who are you?" he whispers almost inaudibly when a new nurse arrives. "What's your name? Are you married? Do you have children?"

He complains that his nurses don't read anything, but for St. Patrick's Day this year he wrote a poem of forgiveness, his only verses since the stroke:

I have nine nurses, nine in troth,
I watch them pass my open door
And mornings, all in white
With different caps,
Showing the gloss of black hair, brown hair
Hair of gold
They carry trays.
As Chaucer says of one, I say of all
"Courtly she is, discreet and debonair."
They're back; they draw into my room
The eight of them, and she is there,
The nurse with tray for me,
And, reviving as the coffee cup
After a restless night, sustaining as the cereal,
Sweet as honey from the dish
That's on her tray, their task,
They call me Patrick, courtly name,
Not Padraic, name ancestral.

Padraic is Gaelic for Patrick, often pronounced Porick, to rhyme with Yorick. Since this pronunciation might seem an affectation in America, Mr. Colum pronounces his name Padrick. He can think of no easy rhyme for it.

"That's a terrible admission for a poet," Mrs. Krochalis said, and Mr. Colum smiled.

Some days Padraic Colum is prouder of his plays than of his poetry. He has often regretted severing his connection with the Abbey Theatre; stalwarts such as Yeats felt the Abbey should be literary, while Mr. Colum and others wanted it to be nationalist.

He follows the current troubles in Northern Ireland and, asked about his views, said: "Well, I think both sides are wrong. The British are wrong for agreeing to the partition of Ireland, and the Irish for submitting to it. However, we won't talk about that."

As he reads the news accounts each day, his floor disappears under the pages he has finished. The walls are decorated with postcards from traveling friends. There are also two drawings, one of Killiney, outside Dublin, and the other of the tower at Seapoint, on the Irish coast, where Joyce spent a day.

Joyce Society

When William York Tindall of Columbia University, a Joyce specialist, retired recently, Mr. Colum wrote him a letter that said:

"I think you and I are the oldest members of the Joyce Society. We have stood up to hear many preposterous interpretations of Joyce's intentions in 'Ulysses' and 'Finnegans Wake.' I had intended to ask you a question. Were you aware, or have I dreamt it myself, that Kettle Flatnose, King of Dublin, had come into 'Finnegans Wake' as Kettle Flashnose, whom Joyce and I knew as Tom Kettle's brother who was head of the Electric Power in Dublin?"

Mr. Colum is president of the Joyce Society, and Dr. Tindall substituted for him at the meeting last week in New York as members recorded birthday greetings for their absent chief.

The effusions will surely embarrass Mr. Colum, who has a sense of proportion. When he was asked why he had come to America and what his ambitions had been, he replied in his smallest, weariest voice: "Oh, it was to get on."

Then he looked up and added: "Suppose we call it a draw."

Associated Press

The newlyweds, Mr. and Mrs. Edward Simpson

PEOPLE: British Groom, 98, Takes a Bride, 82

Edward Simpson got married at the age of 98 Wednesday and, for want of challenger, became Britain's oldest bridegroom. The bride was **Eva Midwinter**, 82. Both had been married before. After the ceremony in Swindon, England, they returned to the home for the infirm where they met nine months ago. The Guinness Book of Records says the world's oldest bridegroom is Ralph Cambridge, a South African who married in September at 105. No records exist of a British bridegroom older than Simpson.

* * *

The Japanese government yesterday reversed an immigration department decision and allowed American actress **Jane Fonda** and an accompaying theater group to give anti-war performances in Japan. Miss Fonda, 33, and her 15-member group arrived at Tokyo airport from Manila on Tuesday night. Immigration officials refused to let them enter Japan because they held only tourist visas. The group planned a series of anti-war performances mainly for American troops based in Japan. But U.S. military authorities had earlier refused them permission to perform at the bases. That refusal still stands.

Yesterday's decision was taken by Justice Minister **Shigesaburo Maeo**, who allowed the group to remain in Japan until Dec. 12.

* * *

It's an ill wind . . . Police in Israel's Jezreel valley said Wednesday that for the first time in months no burglaries were reported in their area Tuesday night. They said it was so wet and windy that thieves stayed at home.

* * *

A lot of glasses were broken at the opening of Regine's new Russian café Reginskaia in Paris, but actress **Jan Birkin** outdid everybody by breaking one on the head of her husband, singer **Serge Gainsbourg**. Also on hand for the Wednesday bash were **Brigitte Bardot** and her ex-husband **Roger Vadim**—both with their current companions.

* * *

Two motorists who paid their fines in cash Wednesday at a Glasgow, Scotland, traffic court were surprised when the judge, **Ewen Stewart**, awarded them rebates. "A person who pleads guilty and has money with him to pay his fine shows a sense of responsibility which I think we should reward," said the judge.
